

JOY FLYERS MISSING AT SEA

WHO GETS IT?
GERMANS ASK AS
ALLIES QUARRELWant Young Plan
to Start Sept. 1.

BY HENRY WALES.

(Chicago Tribune Press Service.)

THE HAGUE, Aug. 20.—With the creditors still hopelessly deadlocked over splitting up of the financial spoils of victory, Germany today asked for a meeting with the allied powers to decide what will happen to reparations if no agreement on the Young plan is reached here.

Gustav Stresemann, German foreign minister, in a note pointed out that it is a short time before Sept. 1, when the Young plan should become operative and supersede the Dawes plan. He stressed the point that Germany has accepted the Young plan.

Therefore, it is questionable whether the Berlin government will continue payment of two and one-half billion marks (about \$696,000,000) per annum under the Dawes plan. There is also serious doubt whether Germany would begin paying the Young plan scale averaging two billion fifty million marks (about \$487,500,000) yearly until it finds out to whom the money shall be paid.

British Press Demands.

The creditor powers therefore face the disagreeable prospect of not getting their hands on any reparations for some time unless they are able to reach an accord on distribution of the booty. Chancellor of the Exchequer Snowden is still adamant on his contention that Great Britain's share of reparations must be increased to 22 per cent as the Spa agreement provides.

Aristide Briand, French premier; Louis Loucheur, French finance minister, and Mr. Snowden had tea with Japanese Delegate Adachi this afternoon. An official statement afterward said: "We tried to bring our standpoints closer to agreement."

Meanwhile the technical experts still are laboring over drafting a report as to what the memorandum of France, Belgium, Italy, and Japan really offers Great Britain in actual figures. British treasury experts showed one arithmetic mistake in the Young plan awarding France in one year a ready to hand \$1,452,000 in excess of its due share. The error was blamed on a miscalculation of an adding machine, but the French did not offer to hand over the sum to Great Britain.

Discuss Rhine Armies Today.

The three powers maintaining armies of occupation—France, Belgium, and Great Britain—will meet the Germans tomorrow to discuss evacuation of the Rhineland. The British will start moving out in September and France is ready to leave about \$1,452,000 in excess of its due share. The error was blamed on a miscalculation of an adding machine, but the French did not offer to hand over the sum to Great Britain.

The Italian finance minister.

Antonio Mosconi, today denied vehemently the allegations of Mr. Snowden that the Rome government will obtain a large share of reparations under the Young plan than under the Dawes plan and declared Great Britain's debt holding terms were no better than those which the United States gave.

He declared Italy was ready to contribute a quota of its reparations proportionate to any other creditor to satisfy Great Britain's demands.

He concluded with the statement that there was no truth in the reports that Italy's attitude was dictated by President hostility to the British Labor government.

Jugo-Slavs Accuse Italy.

M. Marinkevitch, Jugo-Slav delegate, however, in another press statement, insisted that the Italian refusal to make concessions to Mr. Snowden's demands prevents the four powers from making progress toward a compromise.

In view of the disturbed atmosphere

and the possibility of the conference moving up hourly, it is significant that the formal invitations for Queen Wilhelmina's banquet on Friday night have not yet been sent out. The delegates have already been sounded out whether they will attend, and all replied in the affirmative.

FEEL HAND OF MORGAN

BY WILLIAM SHIERER.

(Chicago Tribune Press Service.)

LONDON, Aug. 20.—Remarkable developments are going on behind the scenes in the reparations squabble which have resulted in London making circles cautiously withdrawing support of the uncompromising attitude on page 4, column 4.

ZEP OFF TODAY
ON ITS FLIGHT
ACROSS PACIFICMikado Fetes Crew
as Ship Refuels.

BY ST. CLAIR M'KELWAY.

(Chicago Tribune Press Service.)

TOKIO, Aug. 21.—Already a day ahead of its schedule on its flight around the world, the Graf Zeppelin will start for America at 4 a. m. Thursday (3 p. m. Wednesday Chicago daylight saving time).

Dr. Eckener made this announcement last night after an inspection of the ship and assurances of the crew that they would have the ship ready.

The refueling will be completed today. The passengers were ordered to be aboard at the Kasumigaaura airport before 2 a. m.

Dr. Eckener said he expected to see the Graf Zeppelin span the dangerous Pacific in four days and then cross America in two days to Lakehurst, N. J. Early this morning the passengers were grouped in the Imperial hotel lobby, where much excitement at the prospects of breaking the globe-circling record. All were eager to start.

Entertained by Emperor.

Japan continued to honor the crew and passengers. The emperor, who watched the Zeppelin over Yokohama from the seaside villa he occupies, yesterday afternoon at tea and presented special loving cups, adorned with the imperial chrysanthemum seal.

Crowds all day filed past the Imperial hotel, their gowns rattling unceasingly on the pavement. The people hoped to glimpse the famous travelers.

Banquets, luncheons, receptions, ceremonies were all on the day's list. Most of the passengers attended these dutifully, but what they obviously enjoyed was the between times at the hotel, in their rooms, at the bar, or in the lobby, talking among themselves and to others of what went on during that hop from Germany to Japan.

Passengers Recount Experiences.

It was a different crowd—the exclusive group of round the world tourists—which made its appearance after a night's rest, baths and breakfast. The strain was gone, and they were eager to talk about the trip and about each other between sight-seeing and state functions.

They let their minds wander leisurely back over the thousands of miles they had flown over the Atlantic, across Europe and Asia. Each passenger, as the conversation went on, assumed individual places and each one a definite character of his own with his own peculiarities and idiosyncrasies.

By the evening after a day of informal talk and bits of memory pieced together, there arose behind all the wonder of accomplishment something of the real atmosphere of the life aboard the air liner sailing over the wastes of Siberia.

Dr. Eckener Is Relicent.

There was Dr. Eckener, large and intractably reticent, who, when inwardly stirred, always groined, as though much annoyed, thus trying to show he is not the slightest stirred.

Then there is Baron von Birkhauser, photographer for a Berlin firm, whose costume was a ridiculous pair of Alpine shorts, short silk socks, and on his shoulders a gorgeous Trolly jacket, matching him abruptly no lower than the sixth rib.

Seated on the window ledge day and night, dozing at rare intervals, was the Swiss lieutenant colonel, Iselin, the indefatigable notetaker, who was forever scribbling in a huge book and snapping impossible photographs with a still more impossible camera.

Leeds Keeps Photograph Busy.

Lighter moments of the voyage were furnished by William Leeds and his boon companion, Joachim Rickard, who registers in hotels as "of Boston and Madrid." They seemed never to sleep. Mr. Leeds brought a victrola and played jazz records all day long and all night long and sat with Mr. Rickard alone in the saloon endlessly talking of youthful things and watching the dark miles slip below them. They were called the two boys of the trip. Leeds the gay millionaire enthusiast, and Rickard, the sporty globe trotter, who never stops traveling and who bought a Zeppelin passage, he says naively, because it was a new way to travel.

They were anxious to talk to somebody throughout the trip was Dr. Megias, physician to King Alfonso of Spain. Nobody ever listened, because his fathering because she asked for an ice cream cone.

THE LITTLE PARTY SEEMS TO BE BREAKING UP

WOMAN GOES FOR
PROMENADE ON
LEDGE 60 FEET UP

A young, and smartly dressed woman appeared suddenly above the facade of the Lakeside theater, 4728 Sheridan road, last night, and began to pace back and forth on the narrow ledge, 60 feet above the pavement.

Hundreds of pedestrians gathered, wondering whether they were to witness a new endurance record, a suicide or an accident to a sleep walker.

A few cynics suspected a publicity stunt but theater attaches quickly dispelled the suspicion by setting up a step ladder which an usher mounted, inviting the woman to please come down.

She produced a cigarette and, raising her heel to strike a match, lost her balance. As women in the crowd screamed, she saved herself from a plunge by seizing the convenient flag pole. The fair smoker giggled as fire trucks arrived and the firemen deployed to spread life nets below her perilous path.

She had finished her third cigarette when firemen reached her promenade by ladders. She received her rescuers complacently and settled snugly in the arms of the firemen who carried her down to safety. She slipped, undisturbed, through the crowd, but the firemen had an explanation. They said she was intoxicated.

LYONS LOSES ITS
FIRE ENGINE TO
BILL COLLECTORS

The village of Lyons was dependent on bucket brigades for fire protection last night. A \$1,500 installment was due yesterday on the new \$12,000 fire truck, but the village didn't have the money, there having been no taxes collected owing to the deadlock in the Cook county reassessment.

Agents of the American-La France Fire Engine company, turned away by the village treasurer, went straight to the fire house. Fire Marshal Fred Masters pleaded for consideration, but the bill collectors were obdurate. They cranked up the fire truck and drove away, depriving Marshall Masters of his pride and joy. Many of the villagers assembled at the town hall last evening for discussion of a new sewer system, but the meeting abruptly ended when a fire alarm came in from 48th street and Warsaw avenue. Luckily, it was a false alarm.

Father Fined for Beating
Child, 10, with Horsewhip

George Evans, 33 years old, now living at 1847 West Adams street, was fined \$40 and costs yesterday in DuSable street court for cruelty to his 10 year old daughter, Margaret. His former landlady, Mrs. Alice Sears, 322 South Leavitt street, told Judge Fredrick Elliott that Evans had lashed the child with a horse whip on July 25. The father said she deserved the beating because she asked for an ice cream cone.

Envoy Resigns
in Feud Over
'Ideal Butler'

(Chicago Tribune Press Service.)

(Picture on page 3.)

Washington, D. C., Aug. 20.—(Special.) A quarrel between Señor Alfredo Gonzales Prada, Peruvian chargé d'affaires in Washington, and Mrs. Miles Poindexter, wife of the former American minister to Peru, over the services of a butler once employed in the Poindexter household resulted today in the resignation of the Peruvian envoy.

Señor Prada, who had employed the servant, one Cornelius, and thus deprived Mrs. Poindexter of his services, retired from the diplomatic service rather than give him up at the orders of the Peruvian foreign minister.

Cornelius told his troubles to Señor Prada, the envoy, who advised the butler that this was a "perfect servant" who worked for such a small salary. But as soon as the English lessons began to take effect Cornelius began to take stock of his condition. He found that other servants, not as expert as he, were getting much higher wages.

THE WEATHER

WEDNESDAY, AUGUST 21, 1929.

Sunrise, 6:04; sunset, 7:45. Moon rises at 8:45 p. m. today. Venus and Jupiter are morning stars; Mars and Saturn are evening stars.

Chicago and vicinity: Partly cloudy Wednesday and Thursday, possibly an occasional shower or moderate southeasterly to southwesterly breeze. Partly cloudy and warmer Wednesday.

TEMPERATURES IN CHICAGO

MAXIMUM, 1 P.

but her time had not been confirmed because of lack of figures on a stop she made yesterday.

Mrs. Keith Miller of New Zealand was down at Elfrida, Ariz., 20 miles from here, her gasoline supply exhausted. She planned to take off later.

The remaining flyers were believed to be on Phoenix, including Miss May Halpelt of Kansas City, who took off late yesterday from Santa Monica and arrived at Phoenix today, and Miss Thos. Rasche of Germany, Miss Rasche left Holville, Cal., where she was forced down yesterday because of "dirty gasoline," and arrived at Phoenix soon after Miss Halpelt.

Claire Faby of Los Angeles, forced down by broken wing struts and a leaky gasoline tank at Calexico, Cal., and Robbie Trout of Los Angeles, who smashed a landing gear at Algodones, Mexico, have withdrawn from the race.

CUP CHANCES PERILED

[Chicago Tribune Press Service.]

Annapolis, Md., Aug. 20.—The bureau of aeronautics today chilled, if it did not kill entirely, America's hope of having an entry in the Schneider cup races in England, Sept. 4 and 7.

While Lieut. Al Williams, the pilot, satisfied with his ship's performance, and backed by the advice of David S. Ingalls, assistant secretary of the navy for aeronautics, had ordered his ship packed for transportation to England, some of the bureau chiefs at Washington felt the odds were too great and requested further tests.

As the ship stands now it is the opinion of leading aero engineers she will fly. But doubt is expressed that she could carry the additional load of 30 gallons of gasoline needed for the Schneider. Williams is willing to try it, increasing the floatage surface of his pontoons while on board the liner going to Europe. The bureau chiefs, however, want at least one full test here before entry and then not unless some record is made. Williams believes he can make these changes in time.

Flies at 220 Miles an Hour.

CALSHOT, England, Aug. 20.—(AP)—Flying Officer Atcherley made a trial flight today in the supermarine S. 8, Schneider cup entrant, and attained a speed which experts estimated at somewhere between 220 and 250 miles an hour. He first taxied the craft on which Great Britain's hopes have been pinned for some distance in the desert and eventually took off in the direction of Cowes, over which he made a fine banking turn at an altitude of 1,000 feet. He straightened the machine out as it passed Calshot and the throttle apparently wide open and it was on this stage that he made his best speed.

THREE CLARKE BANK PARTNERS GO TO PRISON

New York, Aug. 20.—(Special.)—James Rae, Philip Clarke, and John F. Bookner, partners in the bankrupt banking house of Clarke Brothers, were secretly taken from the federal house of detention here today and entrusted for Atlanta penitentiary. With a party of more than twenty felons they were handcuffed and taken to the Pennsylvania station in a prison van. There they were loaded into a special car which will carry them directly into the prison enclosure.

VACATION—and far from the life of the city, but what a delightful reminder of Chicago is a box of Fannie May's wonderful home-made candies received by Mail!

SHOPS ALL OVER CHICAGO

SUN GOD HOME; TWICE CROSSES NATION; NO STOP!

Gets Into Spokane Through Smoke Clouds.

Peltz Field, Spokane, Wash., Aug. 20.—(AP)—Nick Mamer and Art Walker, the first flyers to complete a round trip, nonstop flight across the continent, landed the Spokane Sun God at 5:59:40 tonight, Pacific standard time.

They sailed over the field here at 1:45 p. m. from the east, but after exchanging messages with sponsors of the flight, the pilots were ordered to stay until about 6 p. m.

A message from Hoover.

Mamer was at the controls when the plane touched the ground. He taxied down the field for several hundred feet and Walker jumped from the cabin into the arms of a cheering crowd.

A telegram from President Hoover was read through a microphone. It follows:

"Nick Mamer and Art Walker: Congratulations on the successful completion of your nonstop refueling flight across the continent and return. This was a further demonstration of the ever widening scope and practical utility of aircraft. (Signed) "Herbert Hoover."

The two men thus had been in the air for five full days, during which they traversed 7,390 miles, the greatest lineal mile distance ever completed.

The final lap of the flight was from Missoula, Mont., where the last refueling contact was made.

Smoke from Forests Hindering.

One of the most dangerous laps of the flight was the homeward leg from Missoula this afternoon, as visibility was poor because of smoke and forest fires that have ravaged the Pacific northwest for weeks.

The Sun God started from here with elaborate ceremonies at 5:54 p. m. Pacific time last Thursday. It flew to San Francisco where two refuelings were made. Thence it turned eastward, flying over Cheyenne, North Platte, Neb., and the middle west to New York.

Circled New York Sunday.

Circling over New York City last Sunday, the flyers dropped a message expressing disappointment at being unable to visit friends, and turned westward.

Cleveland, St. Paul, South Dakota, and northern Montana points were passed over on the return trip.

Besides being the first plane to fly on a nonstop, round trip flight across the continent, the Sun God broke the record of heavier than air machines of 4,668 miles made by the Italian aviators, Ferrarin and De Prete, on a flight from Rome to Natal, Brazil.

OCEAN FLYERS LOST

The airplane, "Young Switzerland," manned by two Swiss youths, Oskar Kasser and Kurt Luescher, tonight was feared lost in the Atlantic somewhere between the Azores and the American coast. The flyers were last sighted yesterday afternoon at the Azores on their attempted flight from Lisbon, Portugal, to the United States.

Grave fears are held for their safety largely because of dense fogs along the American coast from Cape Race to Halifax, Newfoundland. The flyers, novices both in navigation and flying, may have been forced down by a low supply of gasoline.

AVIATION NOTES

(Picture on back page.)

Court A. Von Soden, vice president of the Zepplin company, was in Chicago yesterday en route to Los Angeles, where he will make final arrangements for the reception of the Great Zepplin on its arrival there after its trans-Pacific flight. The count was accompanied by F. W. Von Meister, United States representative of the Zepplin company. They left Chicago last night by train to Kansas City, where they will board an airplane and fly to Los Angeles.

Boeing Air Transport is awaiting the approval of airport authorities before the construction of a modern terminal which will have combination hangar and passenger facilities. The terminal will be constructed as soon as the plans are approved.

George B. Foster, chairman of the Association of Commerce aviation committee, yesterday made a plea before the members of the Chicago air capital committee for greater effort in

Organization of Airport Lighting, Inc., to manufacture and install night landing systems at airports, was announced yesterday.

The New York-Rio-Buenos Aires plane Santiago arrived in Buenos Aires yesterday afternoon from Santiago, Chile, having crossed the Andes in record time, giving an auspicious start to the new air service.

The first three-element light airplane, designed for touring over broken country and water sheds, was successfully flown over London yesterday. It is called the "Cirrus-Moth Amphibion," and can fly in the air, navigate on water and run on land. It is claimed that the craft can be housed in an ordinary motor garage.

SNOOK DOOMED TO DIE NOV. 29; TAKES IT GAYLY

Laughs and Jokes with Death Cell Guards.

(Picture on back page.)

Columbus, O., Aug. 20.—(Special.)—Dr. James H. Snook occupied a cell in "death row" at the Ohio State penitentiary tonight. The former Ohio State university veterinary professor this morning was denied a motion for a new trial by Judge Henry L. Scarlett, who forthwith sentenced the slayer of Theora Hix to death in the electric chair on Nov. 29, the day after Thanksgiving.

Looking the judge in the eye, Snook heard the death sentence without a tremor. He walked with a firm tread out of the courtroom to a waiting

automobile and was whisked to the penitentiary, where he became convicted No. 41,654.

Accompanied by deputy wardens, Snook walked to the death row. He was calm and when the wardens searched him he joked and laughed. They took \$3.48 from him and gave him a credit check for the amount.

Joseph B. Locke and Arthur Maul, the two other condemned men occupying the cell, greeted him. He answered them with "Hello, fellows." Admitted to the cell, Snook and the two other prisoners discussed arrangements of sleeping quarters and Snook was given an upper bunk.

All specifications set forth in the motion for a new trial were overruled by Judge Scarlett. Defense Attorney E. O. Ricketts noted an exception to the ruling, and indicated that a review of the case will be sought in the Court of Appeals.

Defense counsel intimated that they will continue their efforts to obtain affidavits supporting their contention that prejudicial statements against Snook were made by jurors prior to the sequestration of the jury.

JANITOR ATTACKS TENANT, FINED.

Demetrius Jandoo, janitor at 2833 South Sacramento avenue, was fined \$100 and costs yesterday by Judge Max Lester in Sackward court for attacking a tenant.

FIFTY PASSENGER SEAPLANE BEING BUILT FOR LAKES

Philadelphia, Pa., Aug. 20.—(AP)—A seaplane capable of carrying fifty persons is being assembled at the Philadelphia navy yard.

The craft is a Dornier supercavitator of the same type as the great plane which recently rose from the waters of Lake Constance, Switzerland, with 100 passengers. It is destined for operation on the great lakes by a Buffalo concern.

The ship will carry thirty passengers and a crew of twenty. It has a wing spread of approximately ninety-four feet, four air-cooled motors of 450 horse power each, and has a gasoline capacity of 10,000 gallons. It is built entirely of metal.

Giant German Plane Tested.

TRAVEMUNDE, Germany, Aug. 20.—(AP)—The giant Rohrbach-Homer seaplane which the Luftwaffe air lines are grooming for trans-Atlantic service to South America today completed a 17 hour nonstop flight, covering 1,612 miles at an average speed of 95 miles an hour. It flew over Holland, England, Norway, and Denmark. The distance covered was in excess of any leg of the projected trans-Atlantic route by way of the Cape Verde Islands and Fernando de Noronha Island.

PLANS TO TRANSIT PASS IN

Committee Beg of Ending De

BY OSCAR H.

More progress probably yesterday in collecting material relating to the proposed Connel company than appears gathered in the previous two days since the "deadlock" committee by Fred Charles M. tended to two plans for new corporation. One by C. H. Wilmerding, house by William Hughes also in the security. The two plans were opposites of each other. ing, whose financial before been printed and take over all the two issues of stock, features of the proposed. Mr. Clarke would these twenty-two out with new issues of bonds.

Both experts fixed at which they believe plans can be worked off service is material that is, until the company 600,000 in extensions and the city ways.—Mr. Wilmerding return on the transit \$215 per cent. One requested, would be used and the remaining \$ turned over to the After the improvement service is substantial which he estimates will to six years, he would pay 4% per cent, with per cent for amortization. Mr. Clarke would "halfway between 7 coupon rates on bonds," which he placed. Asked specifically Carroll for his reckoning of return, Mr. Clarke believed that under his cost would be sufficient several times that two curties are sufficient, rei opined that the p bond buyers could understand the Charles Wilmerding set-up.

No Support for C

Neither Mr. Clarke merding said anything to favor the city's plan all extensions and ine the actual cost of money. "The reason that than electric railways, a lower coupon rate account than street and ways is because the city permitted to earn snow free reserves," said Mr. The city's representatives privately urged to ask queeting Mr. Wilmerding the practicability of the speed plan of financing.

PLANS TO SOLVE TRANSIT RIDDLE PASS IN REVIEW

Committee Begins Task of Ending Deadlock.

BY OSCAR HEWITT.

More progress probably was made yesterday in collecting information on the proposed Consolidated Transit company than appears to have been gathered in the previous two months and two days since Gov. Emmerson signed the enabling legislation.

The "deadlock" committee, headed by Prof. Charles M. Thompson, listened to two plans for financing the new corporation. One was presented by C. H. Wilmerding of the bond house of Dillon, Reed & Co., and the other by William Hughes Clarke, who is also in the security business. The two plans were almost exact opposites of each other. Mr. Wilmerding, whose financial set up has heretofore been printed exclusively in *THE TRIBUNE*, would have the new corporation take over all the various transit lines of the present transit companies. Mr. Clarke would replace all these twenty-two outstanding issues with new issues of bonds and common stock.

Fix Rates of Return.

Both experts fixed a rate of return at which they believe their respective plans can be worked out. Until transit service is materially improved—that is, until the companies spend \$25,000,000 in extensions and improvements and the city constructs subway—Mr. Wilmerding would limit the return on the transit investment to 4 1/2 per cent. One per cent, he suggested, would be used for amortization and the remaining \$15 would be turned over to the new company. After the improvements are made and service is substantially improved, which he estimates will take from four to six years, he would give the company 5 1/2 per cent, with an added one per cent for amortization.

Mr. Clarke would give a return "halfway between 7 per cent and the coupon rates on first mortgage bonds," which he placed at 5 1/4 per cent. Asked specifically by John A. Carroll for his reckoned average rate of return, Mr. Clarke said that he believed that under his scheme 5 1/4 per cent would be sufficient. He repeated several times that two layers of securities are sufficient, and Mr. Carroll opined that the public and the bond buyers could more readily understand the Clarke plan than the Wilmerding set-up.

No Support for City's Plan. Neither Mr. Clarke nor Mr. Wilmerding said anything which appeared to favor the city's plan of financing all extensions and improvements at the actual cost of money.

"The reason that utilities, other than electric railways, sell bonds at a lower coupon rate and at less discount than street and electric railways is because the others have been permitted to earn enough to collect free reserves," said Mr. Wilmerding. The city's representatives, although privately urged to ask, avoided requesting Mr. Wilmerding's opinion of the practicability of the city's proposed plan of financing. The near-

est approach to such a question was one by Ald. Frankhauser (49th), asking whether bonds for extensions would be salable if the city provided a return only sufficient to cover actual cost.

"No," replied Wilmerding unhesitatingly. "A free reserve is needed."

Fisher Leads Questioners. No one asked whether a reserve for amortization could take the place of a free reserve. The interrogation of Mr. Clarke had not been completed when the second session of the day ended.

Walter L. Fisher, attorney for the federal court, did most on the questioning of Mr. Wilmerding. He brought out that above the money needed for securities, representing assets in the consolidated company, there would be accumulated about \$4,000,000 a year, beginning in the sixth year, which would increase until it probably would reach \$6,000,000 in the twenty-fifth year.

In addition to the securities now outstanding and those issued for extensions, Mr. Wilmerding would issue 1,000,000 shares of common stock. This \$4,000,000 to \$6,000,000 annually would go to that common stock.

Attorney Fisher also brought out that Mr. Wilmerding, in his calculations, has estimated that the expenses of such an event the surplus earnings would be higher than Mr. Wilmerding had estimated.

Favor Stock and Bonds. Both Mr. Wilmerding and Mr. Clarke recommended the issuance of stock in addition to bonds, while the city's plan contemplates use of bonds alone for all new money for extensions and betterments. At the outset ratio, Mr. Fisher pointed out that in such an event the surplus earnings would be higher than Mr. Wilmerding had estimated.

Both Mr. Wilmerding and Mr. Clarke recommended the issuance of stock in addition to bonds, while the city's plan contemplates use of bonds alone for all new money for extensions and betterments. At the outset ratio, Mr. Fisher pointed out that in such an event the surplus earnings would be higher than Mr. Wilmerding had estimated.

Diplomat Quits in Washington Row Over Butler

Mrs. Miles Pindexter, wife of the former American minister to Peru, who brought Peruvian butler to Washington, only to have him hired away by Senor Alfredo Gonzales Prada, Peruvian charge d'affaires in Washington.

Senor Alfredo Gonzales Prada, Peruvian charge d'affaires, who resigned rather than obey order of his government to permit the butler to return to the employ of Mrs. Pindexter.

Clark suggested 50 per cent bonds and 40 per cent stock, leaving it to the new company to issue later which ever kind of security they may deem advantageous.

Mr. Clarke insisted that the combination should not only include elevated and surface lines, but also buses. He reckoned that their total property value is \$242,995,101. He has eliminated the cash reserve accounts of the companies in his reckoning, such as the \$16,000,000 reserve of the surface lines for renewals and depreciation.

The present companies opened the hearing yesterday morning with a statement from Harry Weber. Mr. Weber asked for "a just and reasonable return" on all money invested, the rate to be fixed by the local transit commission. As a preliminary, he said that the companies would agree to a fixed return for one year or two. He emphasized that the new company asks for a return only on actual investment.

The hearing will be resumed this morning with Mr. Clarke's plan under consideration.

FALL IN BAY ENDS ENDURANCE HOP IN SAN FRANCISCO

San Francisco, Cal., Aug. 21.—(AP)—Donald Templeman, endurance flyer, fell into San Francisco bay at 3:47 o'clock last night, suddenly ending his quest of a 40 hour solo refueling endurance flight record.

The aviator, who had been aloft 25 hours 31 minutes, was not injured, but was taken to a hospital at San Mateo for observation.

The plane, the San Franciscoan, fell when it hit an electric transmission line while circling Mills field.

SLAIN IN MELAN PATCH. Memphis, Tenn., Aug. 20.—(AP)—Robert O'Brien, 16, son of a Birmingham manufacturer, died today of gunshot wounds received last night while in a watermelon patch with two men.

LILLIAN GISH FINDS HER FOE ON SHIP, HIDES

Lands With but Mad at Suing Ex-Fiance.

(Pictures on back page.)

New York, Aug. 20.—(Special.)—Lillian Gish and Charles H. Duell, whose charges, counter charges and court affairs have been the subject of gossip in Hollywood for years, arrived from Europe on the same boat today—but still as far apart in their likes and dislikes as ever.

Miss Gish told reporters that she had been compelled to remain "virtually a voluntary prisoner" in her stateroom for the entire trip because of the presence on board of her former director, who is suing her for breach of contract and various other things. Duell complained that he had been "shadowed" all the way over.

Lawyer Appealed to French Line. It developed that the erstwhile screen star—she retired from the silent drama for the time being when it developed the "talkie" habit—cabined her lawyer, Max D. Steuer when she discovered that Duell was aboard the Ile de France and that he appealed to the French line to protect Miss Gish "from any annoyance on the part of Duell."

Duell insisted to reporters today that he did not know Miss Gish was to be a passenger on the liner when he booked accommodations. He admitted his mission in Europe was to obtain affidavits, at Paris, The Hague, Deauville, and elsewhere, for use in one of his actions against Miss Gish—the one for \$35,000 which, he says, represents sums advanced to her when she was under his management in the Inspiration Picture company.

The actress was convinced, however, that "it was all very deliberate." She intimated to reporters that she had lost all count of the actions her erstwhile manager had brought against her since they came to the parting of the ways, professionally speaking.

Miss Gish said she purposely has remained outside the movies for the last two years awaiting a revival of interest in the silent pictures.

In his \$5,000 suit against the actress, Duell described himself as her erstwhile fiancé as well as her former employer and charged that after the break in their relations she conspired to "ruin him financially and professionally." In this action he named as co-defendants her mother, the Metro-Goldwyn corporation, and various other individuals.

CHICAGO AGENTS ARREST 17 IN DRY RAIDS AT JOLIET

Seventeen men were arrested by Chicago prohibition agents last night in six raids on Joliet poolrooms, saloons and speakeasies. It was reported that forty-one warrants were to have been served, but this was denied by Assistant Administrator George H. Hurt.

Those arrested were Hugh McCraney, 436 South Chicago street; Mike Colas, 640 South Chicago street, in whose soft drink parlor Joe Buffo and Thomas Gustaf were taken; John Bonlay, 601 South Joliet street; Harold Paul, who operates a small roadhouse in Troy township near Joliet; Mike Johnson, 201 1/2 Columbia street; Peter Verba, 2523 North Broadway; Mike Klobutcher, 1633 North Broadway; James Oppius, 111 East Jefferson street, and Gust George, 217 North Bluff street. At Klobutcher's place the agents arrested six men who were found in the yard in the rear. They were Anton Fredo, John Jones, William Jones, John Pluth, Joseph Popesi, and Frank Gregorish.

The seventeen prisoners will be brought to Chicago at noon today and arraigned before Commissioner Walker.

Woman, 2 Girls Drowned in Lake on Church Outing

Iron Mountain, Mich., Aug. 20.—(AP)—A young woman and two girls were drowned in Lake Leelanau, near Loretto, Mich., tonight. All three were residents of Breitung, Mich., who were at the lake for a week's outing with members of a Baptist young people's society. They went rowing on the lake after dark.

EX-MRS. DODGE TELLS MARITAL WOES IN NEW SUIT

Romance with Manning Brief but Stormy.

Detroit, Mich., Aug. 20.—[Special.]—How Lois Knowlton Dodge Manning's brief romance with Benjamin Franklin Manning, former coast artillery lieutenant, broke up while they were on their honeymoon from Honolulu to Tokyo, was related today by Mrs. Manning. She testified before Judge Theodore J. Richter in the circuit court in her uncontested suit for divorce.

At the suggestion of Arnold F. Zelenick, Mrs. Manning's attorney, Judge Richter postponed the case until he could bring in Mrs. Manning's maid, the only available witness to the events on the honeymoon trip.

Mrs. Manning, the former wife of Horace E. Dodge Jr., testified that she had known Manning three months when she married him Sept. 1, 1927, in Honolulu, at the home of Kenneth Harlan, motion picture actor.

Struck Her on Boat Trip. "We started for Tokyo on the boat," she testified. "On the boat he struck me in the face and used vile language, he called me names without cause and behaved so outrageously toward me that the captain took him into custody."

"From Tokyo we went to Kobe, on the train. In the presence of all the other passengers he struck me in the face and left a bruise half the size of my hand. We separated in Kobe."

Mrs. Manning said her husband had never contributed anything toward her support.

Mrs. Manning and Dodge were divorced in May, 1927, despite a trip made by Dodge from Paris to Honolulu to effect a reconciliation. They had two children, the custody of whom they now share.

Mourns for Lost Flyer. In July, 1927, Lieut. Charles L. Williams, an army flyer, was killed in Honolulu. It was rumored that Lieut. Williams and Mrs. Dodge were engaged, but she denied it. At news of his death, however, she at once left her California home for Honolulu. She was clad in deep mourning. She remained in Hawaii and in September of the same year was married to Manning.

After their separation in the Orient, Mrs. Manning continued to Europe, but Manning went to Hong Kong and thence returned to America. Landing at Vancouver, Manning went directly to Reno, Nev., where he established a residence and went to work. He announced his intention of filing a divorce suit early this year. Mrs. Manning had already filed suit here, but withdrew it when she heard that Manning was filing one in the west. Later she had her suit reinstated.

\$2,000 a Month Allowance. Under the Dodge divorce settlement she was to get \$2,000 a month for life or until she remarried, or she could accept a lump sum of \$600,000 in lieu of the monthly payments. In the event of remarriage, the lump sum was to be reduced to \$150,000. She gave her testimony in a courtroom fifty feet from where she obtained her freedom from Horace Dodge about three years ago.

KING ASKS AID OF SWANSON TO SOLVE BOMBING

All available information that might lead to clearing up the recent bombing of the summer home of Lawrence F. King, trustee of the sanitary district, will be handed over to State's Attorney Swanson by Mr. King today. This was announced yesterday following a conference between the two officials.

"Somebody is trying to run me out of Chicago, but it can't be done," was King's only comment on the bombing while at the Criminal courts building. King is under indictment in connection with alleged squandering of sanitary district funds. The bomb, the second of which he has been the target, was exploded beside his residence in Justice Park early on Monday morning. On Dec. 18, 1928, King's city home at 2626 Hamilton avenue was bombed.

TEN POLICEMEN OFFER BLOOD TO SAVE SERGEANT

Ten policemen of the Racine avenue station yesterday offered to give blood to Sgt. Gustave Carlson, who is seriously ill at St. Elizabeth's hospital. Hemorrhages have so weakened Carlson that hospital physicians said blood transfusions were necessary.

From among the volunteers, Dr. Ben Milton selected two policemen, Peter Ward and Otto Buck. The physician said that other transfusions may be necessary, and the policemen assured him there would be plenty of applicants ready for the operation. Sgt. Carlson is a bachelor and has resided for years with his sister at 1614 North Kilpatrick avenue.

LEADERS IN INDUSTRY

Realize only too well the grave danger his business must face with the removal by death of executives. Such an untimely calamity often brings to a halt the very future of a business and sometimes even results in disastrous failure.

My company undertakes to insure against such a contingency by providing means to bridge over this critical period. Modern business leader leaves no stone unturned to safeguard the continued prosperity of his company, even after his personal supervision has been withdrawn. My simple plan will protect you.

MRS. LOIS KNOWLTON DODGE MANNING.

ASK ABATEMENT OF WHISTLING BY BOATS ON RIVER

Acting on a complaint from the Michigan Avenue association that the sounding of tug and steamer whistles along the Chicago river is becoming a nuisance, Lieut. Col. W. C. Weeks, government engineer, has addressed a letter to shipping interests asking their cooperation in abating the noise. It is the contention of the navigation companies that much of the whistling could be discontinued if the tugboaters would give some signal to approaching craft that they were about to raise bridges in response to the boats' first signals. In his letter Lieut. Col. Weeks suggested that less piercing whistles, possibly horns, might be substituted for the deep blasts that now come from the boats.

Baby 3 Weeks Old Left on Doorstep of Building

A baby girl about three weeks old was found last night on the doorstep of an apartment building at 1317 North Dearborn street. Police of the Hudson avenue station took the infant to the St. Vincent orphanage. A note, pinned to the baby's wraps, said: "Please take good care of this child. I have three others and am heart-broken to leave my baby girl on some one's doorstep. But I have to work every day and am unable to keep my baby."

TIPSY AUTOIST BEGINS SERVING 60 DAYS IN JAIL

Found Guilty of Driving While Intoxicated.

Joseph Kyle, wealthy real estate dealer, yesterday began serving a sixty day sentence in the House of Correction for driving while intoxicated. The jail term was imposed by Municipal Judge Samuel H. Truitt after Kyle had been found guilty by a jury on June 21. The mittimus was issued at the end of a sixty day stay granted in order to enable Kyle to perfect an appeal.

Kyle was arrested on Memorial day after his automobile had crashed into a milk wagon, injuring its driver, Michael Heber, 3988 Normandie avenue. Kyle was riding with a woman companion and was said to have been returning from a tour of roadhouses. Several years ago he was convicted of manslaughter for the killing of a farmer in an automobile crash, but was freed at a second trial.

Policeman Hurt in Crash. Policeman Fred Schaefer, 40 years old, 4516 Keystone avenue, and Fred Berndt, 23 years old, 1552 Dayton street, were probably fatally injured yesterday when the automobiles in which they were riding collided at Belmont and Crawford avenues. They were taken to the Belmont hospital, where they underwent operations. Both suffered skull fractures. Berndt's right eye was removed.

Fifteen women passengers were shaken up when a bus and a truck collided at Greenwood street and Elmwood avenue, Evanston. John Corrad, 1014 Elmwood avenue, driver of the truck, was slightly injured.

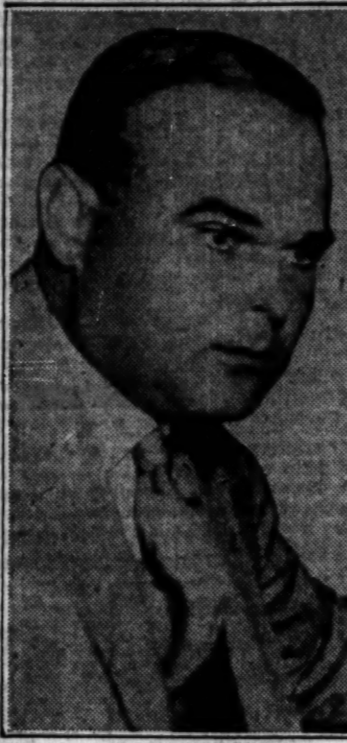

Street Car Motorman Held. A coroner's jury held Marvin Smith, 56 years old, 1616 West 81st street, a street car motorman, to the grand jury on charges of manslaughter for the death of Casimir Kozlovski, 56 years old. Kozlovski was fatally injured on Aug. 8 when his truck was struck by a street car at 75th street and Cottage Grove avenue. Smith has been a motorman for 35 years.

With no deaths yesterday, the 1929 Cook county motor toll remained at \$44.

Lane Tech Students March in "Stunt Day" Parade

About five hundred costumed students yesterday participated in the annual "stunt day" parade and carnival at Lane Technical High school. An entertainment was given later in the school gymnasium. Summer school graduation exercises for 110 summer school students will be held tomorrow evening.

IN PRISON

GRID STAR TRIED AS CURE GOES TO VISIT 'PLAINTIFF'

Frank L. Baker, star football player at Northwestern university, who went through a mock police court trial instigated by the football coach, Dick Hanley, and Dr. John J. B. Morgan, psychology professor, to cure him of "kleptomania," left Evanston for Cedar Rapids, Ia., yesterday apparently still believing the trial was genuine.

Members of Baker's fraternity, Phi Kappa Psi, denied they had complained to Coach Hanley of Baker's borrowing habits but police officials stated that Paul Cummings, a second string football man and member of the fraternity, had signed the complaint. Baker will be a guest at Cummings' home in Cedar Rapids until school opens, it was said.

August Rainfall Quarter of an Inch Below Normal

Rainfall in Chicago during the first twenty days of August has been unusually light. Figures compiled by Weather Forecaster C. A. Donnel yesterday show 2.26 inches of rain this month, which is .35 inches below normal. Precipitation was noted on August 2, 3, and 10 and another fall is predicted for this morning. A year ago rain fell on August 3, 4, 8, and 20 of the month, which corresponds oddly to the rainfall dates of this year.

LAKE VIEW TAXES CUT 20 PER CENT BY REVALUATION

The average tax bill in Lake View will be 20 per cent lower as a result of the reassessment, according to assessed valuation figures officially compiled yesterday by Harry S. Outmore, director of the revaluation.

The new total assessed valuation of combined land and buildings in Lake View is \$302,814,966, representing 27 per cent of the real value. Last year the assessment, when revised by the board of review, was \$378,614,170.

Lake View extends from Fullerton to Devon avenue and from the lake to Western avenue. Private homes occupy most of the area west of Clark street, while the section east of Clark street is largely an apartment district.

CAPE GRIS-NEZ, France, Aug. 20.—[U.P.]—Dr. Schiff, a 65 year old German, started to swim the English channel today.

ADMITS BOMBING HOME; BLAMES HIS EMPLOYER

Harlan Brown, 721 South Crawford avenue, last night confessed at the detective bureau that he engineered the bombing of the home of Philip Bloom at 4840 North Hermitage avenue on Dec. 4. The confession followed the arrest of Brown and two companions, Albert Batansky, 721 Independence boulevard, and David Goldman, 1632 South Avera avenue.

The three men, according to the confession, were employed by Nathan Zehon, a manufacturer of women's garments at 327 South Market street. Yesterday Lieut. George Barker arrested Goldman, who had \$2,000 worth of women's garments in his possession. According to the police, they had been taken from the Zehon shop. When Zehon appeared at the detective bureau last night to identify the stolen goods, Brown charged him with hiring him to bomb Bloom's home.

Bloom and Zehon are brothers-in-law and formerly were joint owners of the Market street establishment. Zehon said that Brown's story was untrue. The latter said another man did the bombing for him.

I

CITY HALL FACES SHAKEUP; WOLFE MAY BE OUSTED

Squabbles Over Patronage Carried to Mayor.

BY CARL WARREN.

Mayor Thompson's cabinet may soon undergo another shakeup with Richard W. Wolfe, commissioner of public works, jolted out of his job, according to reports sitting in yesterday from Wisconsin and Michigan reports where the city hall higher ups are spending their vacations.

Several of the mayor's close political advisers, the rumors were, have urged him to act when the council reconvenes on Sept. 11, removing Mr. Wolfe and redistributing the heavy pay roll patronage in his department. Mentioned as possible successors to the commissioner were Patrick H. Moynihan, recently ousted by Gov. Emmerson as head of the state commission, or Deputy Commissioner Edward F. Moore, Eugene Pike, president of the Lincoln park board, it was said, can have the office if he wants it.

Speech Sides Up Rump.

Squabbles over plums in Mr. Wolfe's department, in particular over the post of superintendent of streets, are known to have caused the mayor trouble for some time. On top of those, it was reported, some of the Thompson leaders took offense at a speech made by Mr. Wolfe last week before the American Association for the Recognition of the Irish Republic. The commissioner is an ardent admirer of Eamon de Valera, former president of the republic, and a vigorous expounder of the anti-King George doctrine.

In his address, however, he went beyond the king and walloped the international power interests, which, he said, have brought English utility control into this country.

"The country has been steeped in public utility propaganda," he told the Irish association. "It is time that we defeat the power interests and reclaim the property that is ours."

Mr. Wolfe's indirect thrusts at the Inall interests as a part of the combine were said to have fallen harshly upon the ears of Mr. Inall's friends in the city hall, who are reported to have pointed out to the mayor that Mr. Wolfe has gone too far.

Quarrel Within Department.

Three factions are quarrelling for control of the bureau of streets which was left vacant two months ago by the death of Supt. Thomas Byrne. Friends of Joseph Butler, acting superintendent and ranking civil service candidate, say the job should be his, while another bloc, led by Corporation Counsel Ettelson, is boosting for Patrick Donovan, assistant superintendent.

A third faction wants to see Mr. Moore step into the job. Among these is Daniel Serritella, city sealer, who aspires to Moore's present position. Mr. Moore, however, is said to be ambitious to succeed Mr. Wolfe.

A second bureau job, sought by several, is that of superintendent of water. Here, too, is a vacancy caused

Rides Bicycle Here from Kansas City

George M. Sanford, 75 years old, and his wheel on which he is riding to Menasha, Wis., where he was born. The last time he was in Chicago was in 1893.

(TRIBUNE Photo.)

Eats as He Rides

Bicycles were popular in Chicago in 1893 when George M. Sanford was here last and with him they are still popular. He rode one here from Kansas City, Mo., arriving yesterday, and he is on his way to Menasha, Wis., where he was born 75 years ago. He remarked that on his last trip through Chicago the Masonic temple, now the Capitol building, was the highest in the city. Mr. Sanford believes in traveling light and besides extra clothing and the few articles he needs to keep his wheel in repair he is encumbered only by a can opener. It enables him to take his meals as he rides.

by the death of Supt. Joseph J. Ward. Apparently perplexed by the disputes over the two appointments, Commissioner Wolfe has left both appointments in the air with the result that everybody concerned has carried his case to the mayor. The probable outcome, according to those in a position to know, will be the appointment of a new commissioner who will dispense the patronage with a firm hand.

Final decisions as to the status of Mr. Wolfe and his appointments probably will not be made until the return of County Treasurer George F. Harding from Europe next week. Mr. Harding is scheduled to arrive on Monday.

Two Boys Killed by Train

on Eve of Baseball Party

Billy Kuhn and Jack Biege, school-boys of Michigan City, who were to have been members of the Elks-Babe Ruth party of Michigan City boys at the Yankees-White Sox baseball game in Chicago yesterday, are dead. Playing "railroad" in the New York Central yards at Michigan City, they darted from behind a box car into the path of a locomotive which fatally injured both.

TERRORISM FAILS, SO EXTORTIONIST TURNS TO GUILF

Confesses \$200 Offer to "Befriend" Victim.

The methods of a Chicago Black Hand expert who employed guile when terrorism tactics failed were revealed last night by State's Attorney T. R. Johnson of Kane County in announcing that Vittorio Festante, keeper of a poolroom at 2045 Ogden avenue, had made a complete oral confession of his plot to extort \$2,000 from Vito Marchese, president of the Italian-Lincoln society of Kane County.

Festante, having failed to move his victim by three written threats of death, faced his intended victim in the guise of a friend and offered to trace the authorship of the letters he himself had written, according to the state's attorney. Festante stipulated that Marchese must hand over the letters and provide him with \$200 to cover the expense of his detective work.

First Threat Note Arrives.

Marchese early in the summer had been in a dispute with Mario Perno, a member of the Italian-Lincoln society, over payment of \$40 sick benefit. On July 19 Marchese received the first extortion letter. It followed:

"Miserable one—Today, finally, you will be the target of a bloody knife if you do not bring \$2,000 on Monday at midnight to the Roosevelt road entrance of Mount Carmel cemetery [Chicago]. Come alone. Say nothing to any one. Do not call on the law because the days of your life will be shortened if you make such a move. Be careful what you do and all will be well. Do not look into the face of the man who will meet you, or you will die immediately."

The note was signed with six initials undecipherable to Marchese.

CHARGE EMPRINGHAM DECEASED PATIENTS IN HIS HEALTH SOCIETY

New York, Aug. 20.—(Special.)—Health Commissioner Shirley W. Wynne today made public copies of the reports in the departmental investigation of Dr. James Empingham, erstwhile superintendent of the Church Temperance society, and the Health Education society, which disclose that he is charged not only with practicing medicine without a license, but with misrepresentation and fraud.

One physician questioned in the investigation, according to the health department record, charged that Dr. Empingham "used to suggest to the physicians on the staff to try and recommend more work to be done on the patients than they actually found necessary."

Other charges were that for a time on a plea of charity he used the free services of a laboratory while he himself demanded fees from the patients thus served and that he sponsored medical reports which rarely were negative, "thus necessitating increased work on the patients."

Letters of an even more menacing tone, decorated with pictures of newly turned graves, knife stabbed hearts and smoking bombs, reached Marchese on July 24 and 31. Recollecting his difference with Perno, Marchese took the notes to him and asked if he knew the author.

Offer of Aid Entraps Him.

Perno, arrested four times for bootlegging, protested ignorance of the

letters, but offered to summon his nephew, Festante, a man of experience in Chicago. Festante came, examined the letters, and said he could locate the author if Marchese provided the \$200 and the letters.

But Marchese was dubious. He declined Festante's aid and took the case to R. Don Hiss, investigator for the state's attorney. Hiss procured a warrant for Festante and the latter was seized with his wife, who has since betrayed herself as the writer of the addresses on the envelopes. Perno and his wife, Cecilia, have also been arrested.

Three witnesses of the slaying three years ago of Jim Smith, a waiter in the Yellow Dog café near Wright, yesterday made a partial identification of Festante, according to Prosecutor Johnson. Two more witnesses of the robbery in which Smith was killed will face Festante today. The state's attorney withheld the names of all five witnesses.

DROP 5 INFANTRY BATTALIONS TO SWELL AIR CORPS

Washington, D. C., Aug. 20.—(AP)—

Five battalions of infantry were ordered disbanded by Secretary Good today as their enlisted personnel could be transferred to the air corps in connection with the five year army aviation expansion program.

The cavalry, field artillery, engineer corps, ordnance, and chemical warfare service stations also were ordered to furnish a total of 1,034 enlisted men to the aviation service.

Officers of the general staff are seeking means of paring down the army's expenditures as proposed by President Hoover.

DEMAND ARISES FOR FIREPROOF OCEAN LINERS

Builders Face Problem of
Eliminating Hazard.

BY TOM PETTEY.
New York, Aug. 20.—(Special.)—Fires aboard two great ocean liners—the Europa and then the Paris—have set shipbuilders planning fireproof vessels. It is the old story of wood vs. steel, and right now the finest steamships occupy the same place as the old wooden coaches in comparison with the modern steel Pullman.

A tour of the shipping district showed that the fire hazard is a big problem to the builders than speed and that passengers are beginning to demand fireproof ships. The following protective measures are being considered for new vessels:

Steel partitions and flooring to take the place of the wooden walls between cabins.

Introduction of a new type of wood with asbestos covering which is said to be past the experimental stage and absolutely fireproof.

Dividing each vessel into a dozen or more sections by fireproof steel walls that can be opened or closed at a moment's notice.

Introduction of automatic fire fighting devices throughout the ship.

Use of a device whereby the first flicker of fire will set off a general alarm.

Still a Long Way Off.

"The shipbuilders are considering the fire hazard more than ever before," said Capt. C. A. McAllister of the American bureau of shipping. "but they still have a long way to go before ships are fireproof. The new vessels are being equipped with steel bulkheads, which are designed to confine any fire to the section of the ship in which it originated, but even this measure is not made compulsory by our government. There is no reason, except that of cost, to keep any liner from being fireproof. The navy builds all steel vessels and even the furniture is steel and aluminum."

"The preventive measures now in use are built into the ships for the owners' protection as much as anything. The international conference on safety at sea, in its meeting in London last April, had a lot to say about lowering the fire hazard. A great deal more should be said and done."

Steel Costly and Unattractive.

A marine architect here who has designed large liners as well as naval vessels, said that no matter how many steel partitions were built into a ship below deck the cabin part of the structure would still remain a fire trap so long as wood was used.

"Steel could be used in the passenger quarters quite effectively," he said, "but it will not be used for some time because of the increased cost, the demand for individuality and the weight handicap. The navy has dem-

ONLY THE FOOL
REMAINS IMMOVABLE
AFTER HEARING
THE CRY—RUN—RUN—
THE FOOL KILLER
IS COMING—

onstrated that all-steel ships are the safest vessels afloat, but, it also has demonstrated that they cost a lot of money. The nation is paying of these vessels, and not individuals. We use all-steel construction in the crews' quarters on most of the ships we design. Here beauty is not essential and the crew does not mind looking at uncovered rivets.

"The great traveler has as much or even more reason to demand a fireproof ship than the railroad passenger has to demand an all-steel Pullman. Eventually the fireproof ship may become a reality without the use of steel throughout its entire structure. We have reason to believe there soon will be on the market an asbestos covered wood that will withstand any flame. When this is perfected and put into general use the fire at sea hazard will be eliminated. The asbestos wood will, I understand, be entirely different from any of the present 'fireproofed' building materials."

Promises Safe U. S. Liners.

Everything practicable will be done to eliminate the fire hazard on the two new liners to be built by the United States line, according to Joseph E. Shuddy of the P. W. Chapman organization.

"Fire screen bulkheads and doors are fitted throughout all passenger quarters of modern steamers," he said, "and stairways are of fireproof construction, inclosed in fire resisting casings. In this way it is possible to restrict areas affected."

"Our passenger steamers are fitted with automatic devices which record the existence of even the smallest blaze. In addition to thermo-electric alarms, recording at a central station, the holds are fitted with mechanical appliances which withdraw air; and in the event of fire in partly inaccessible sections the smoke mixture gives immediate notice at the control station and steam is poured into the flames through permanently fitted smothering lines."

Tells of Damage to Paris.

The New York office of the French line wired this Tribune yesterday apropos the fire on the Paris: "Home office cable fire not serious; confined to salon, mixte smoking room, a few staterooms and after part of deck A. Other parts of steamer not damaged. Sailing of Aug. 28 cancelled. Will advise next sailing date."

EX-KAISER TELLS GERMANY HE'LL STAY IN HOLLAND

Personally Puts End to Rumors of Return.

BY SIGRID SCHULTZ.

BERLIN, Aug. 20.—A general representative of the family of Hohenzollern in Berlin circularized the press today with a formal denial of the rumors that former Kaiser Wilhelm intends to return to Germany. It endeavors to put an end to the discussion as to which castle the former Kaiser has chosen as his headquarters by adding that "since he does not intend to move to Germany now there is no need for his representatives here to seek a new abode for his majesty."

Three places are left to the Hohenzollerns in Berlin, but one of them, located in Unter den Linden, is a museum and is known as "the palace of the old Kaiser," the second palace, which houses his representative, is too small, and the third, entrusted to the care of his descendant, Prince Albrecht Hohenzollern, is not practical.

Son Occupies Palace.

In settlement with the Republican authorities the former Kaiser is granted the right to live in the palace of Humburg Vor Der Hohe with his wife until he dies. His son, Prince Adalbert, and his wife are living there now. The Republicans do not believe, however, that the Kaiser will want to return to this favorite palace of his former wife, once the empress, because he is said to be anxious to avoid conflicts.

There is also the material side to it. He must pay heavier taxes in Germany than in Holland. At present he

DIEKEMA, MICHIGAN MAN, APPOINTED AS ENVOY TO HOLLAND

Washington, D. C., Aug. 20.—(AP)—Gerrit John Diekema of Michigan today was appointed minister to Holland to succeed the present minister, Richard M. Tobin of California, who has resigned.

Diekema, whose parents were born in Holland, speaks Dutch and has long been a student of the affairs of the Netherlands government. He was born in Michigan, March 27, 1868, and is a graduate of Hope college, Michigan and of the University of Michigan. He was a member of the sixtieth congress. From 1901 to 1907 he was a member of the Spanish treaty claims commission.

His home is in Holland, Mich., where he is engaged in the banking business. Tobin has served as minister at The Hague since March 5, 1923.

pays German taxes only on property he owns in Germany.

The former crown prince, who returned to Berlin recently after a visit to Holland, told friends that he does not believe his father wants to return. He himself is uninterested. His time is devoted to sports. His red Mercedes car is seen whirling through the avenues of Berlin and Potsdam.

Gets Traffic Preference.

A Socialist paper today complains that police guards between Berlin and Potsdam hold up all traffic when the former crown prince appears and see to it that his car shoots out first. The guards stand at attention when he passes.

There is one point on which the former emperor called upon him to act as heir of the Hohenzollerns, it is said. He wants to be buried on German soil and requested that his son see to it that his last wish is carried out.

RETURNED TO INSANE ASYLUM.

Le Roy Hunter, 38 years old, who escaped Aug. 9 from the state hospital for the insane at Kankakee, was returned to the institution yesterday. Grand Crossing police apprehended him Monday night in the vicinity of 75th street and Elmberk avenue.

Why did they wait for This New Pierce-Arrow?

Body and Engine by Pierce-Arrow—and Pierce-Arrow in every part!

The above question does not long remain unanswered after a glimpse of the new Straight Eight. And this is especially true if other fine cars are present for comparison.

The new Straight Eight was purposed to be the finest car that Pierce-Arrow ever produced. That it should also have been a remodeler of fine car fashions could not have been foreseen. But that is precisely what happened.

The long, low-slung slenderness of the new Pierce-Arrow was welcomed by fine car owners grown tired of bulk and stodginess in big automobiles. So great, in fact, was the conquest that Pierce-Arrow served a waiting-list for many months. And while demand still crowds production, some of the most favored models of the new Straight Eight line are now being locally shown.

\$2775 TO \$8200 AT BUFFALO

HERE ARE FOUR ITEMS OF CHEER FOR MOTORISTS

Evanston Finds Solution of Sheridan Bottleneck.

Cook county pays for ONE-HALF and gets ONE-TWENTY-FIFTH of the state's highway.

BY HAL FOUST.

Chicago motorists received good news from four sources yesterday: Ohio street, paved and widened, will be opened this morning for the entire distance of the improvement, from Lake Shore drive to Orleans street.

Mayor Bartlett of Evanston said he believed the bottleneck on Sheridan road at the Chicago-Evanston boundary will be removed within two years, with a wide boulevard between Calvary cemetery and the lake.

Will county began the first construction under its \$1,750,000 bond issue road program.

The widening and paving of Augusta street was completed for the three miles between Kedzie and Elston avenues.

Parking Already a Nuisance. Ohio street has been closed, at least in part, since last spring, while President Faherty of the board of local improvements and Commissioner Dr. P. W. Wolfe debated whose department was responsible for the tardiness of the contractor, the White Paving company, which has been associated with the city administration in several law suits.

The new boulevard on the near north side was designed as an additional outlet from the loop for north bound automobiles, relieving congestion on the Michigan bridge. Yesterday, heavy parking on the sections of Ohio then open blocked two, and at places three, lanes of traffic.

Leslie Sorenson, city traffic engineer, is completing a comprehensive survey of parking conditions on the near north side and he said last night that his report will include some type of parking restrictions for Ohio street.

The North Central association has recommended one hour parking regulations.

Evanston Gets State Aid. Mayor Bartlett has won the cooperation of Frank Sheets, state superintendent of highways, and of George Quillian, county superintendent of highways, in work preliminary to the construction of a fifty-six foot pavement with sweeping curves around Calvary cemetery where there is now a narrow pavement with sharp curves.

"From the progress that has been made in surveys and in conferences," said the Evanston mayor, "I have reasons to expect that the improvement will be completed in two years."

MAURETANIA, FOR 3D SUCCESSIVE DAY, PUTS DENT IN SPEED RECORD

New York, Aug. 20.—(AP)—For the third day in succession the Cunarder Mauretania broke her record for a day's run, S. G. McNeil, her captain, wired the line's office here.

Speeding eastward in quest of her shorn speed laurels, now held by the North German Lloyd liner Bremen, the "old lady of the sea" from noon yesterday to noon today logged 535 miles at an average of 27.65 knots. This is twelve miles greater than her old record for the eastward crossing of 523 knots, which she already had broken twice on this run with marks of 530 and 534 miles.

The German liner Bremen passed Ambrose light at 11:54 a. m. this morning, completing her second westward run one hour and 22 minutes slower than her maiden trip, which set a record for the crossing from Cherbourg. Her time was four days 18 hours and four minutes for this trip as against her record time of four days 17 hours and 42 minutes.

Mr. Sheets has assigned George Lamb, his district superintendent, to make a survey, and Maj. Quillian has indicated he will support the project.

"I see a way for financing the improvement," Gov. Emmerson's advisory committee has recommended the expenditure by the state of \$310,000 of gasoline tax revenue on Sheridan road outside of Chicago. And Cook county has decided to spend its share of the gas levy within Chicago, so Sheridan road might get some of that. The only expense within Chicago would be the condemnation of a couple of lots and the pavement of an approach to the lake front drive by an easy curve.

Start Joliet Belt Highway. Just to the north and just to the south of Joliet, construction crews began work on two jobs that, when finished, will permit through traffic to avoid the congested, narrow streets of that city. On the north of the city, work was started on Theodore street between route 4 and route 22. This is a part of a belt highway project included in the bond issue program. South of the city, on Richard street, pavement is being laid on a link between route 4-A and 44, which goes to Kankakee.

Will county voted \$1,750,000 bonds

EMMERSON, GOOD, PARTY OF 50 WILL TOUR WATERWAY

Congressman William E. Hull of Peoria held out hopes yesterday that the obstacles threatening the early completion of the Illinois waterway will be overcome next week when Secretary of War Good and Governor Emmerson, with a party of fifty, will travel over the waterway route as guests of the Illinois Manufacturers' association. The party will leave Chicago on Aug. 27.

Both Secretary Good and the Governor will address a dinner meeting in Peoria on the following day. Congressman Hull, who passed through Chicago from Washington yesterday, on his way home to arrange for the meeting, said he hoped a settlement of financial and diversion problems might be made by which the federal and state governments will divide the cost of the improvement.

"Peoria is arranging to pass legislation for a bond issue of \$400,000 for the installation of terminal facilities," said Representative Hull.

Corns

Pain stops instantly, completely!

A REVELATION OF COMFORT

A GUARANTEE OF SAFETY

"How wonderful!" you will exclaim when you apply Dr. Scholl's Zino-pads. Absolute comfort in one minute! You walk, dance—be as active as you like—and are never once reminded of your corns!

All shoe pressure stops instantly, because Zino-pads remove the cause and soothe the heel. No chance of acid burn as with old-time harsh liquids and plasters. No risk of blood poisoning which you

run from cutting your corns. Dr. Scholl's Zino-pads are thin, cushioning, protective, safe, sure. That's why doctors recommend them. Won't come off while bathing. Also sizes for Callouses and Bunions. At all Drug, Shoe, Dept. stores, 35c.

Dr. Scholl's Zino-pads
Put one on—the pain is gone!

Health Group Urges More Mechanical Refrigerators

Means of reducing the number of deaths of children from accidents were discussed by the Illinois board of public health advisers yesterday at its meeting in Springfield. The board found that accidents are the second largest cause of deaths to children. The board also adopted a resolution favoring a wider use of mechanical refrigeration, with safeguards, to prevent illness from spoiled food, and urged the health department of Illinois cities to promote their use.

Held by U. S. for Cashing Check Sent Him by Error

Clarence McMahon, 40 years old, 1039 West Madison street, was held to the federal grand jury in \$10,000 bonds by United States Commissioner James R. Glass yesterday on charges of stealing from the mails. It was charged that McMahon had stolen a check for \$5,000 which was delivered to his address by mistake, indorsing and depositing it in a bank. It was stated that he had drawn several hundred dollars against the check.

Dynell WATER

From the famous Dynell Spring, is pure, healthful, refreshing. It provides a natural and harmless way to reduce, besides acting as a stimulant to better health and condition. Its valuable mineral contents adjust the chemical balance in the body. Overweights tell us that Dynell Water is a rare discovery. Many are losing from 5 to 10 pounds a month. Many also write grateful letters claiming relief in the treatment of Rheumatism, Gastritis, Constipation, High Blood Pressure, Neuritis, Kidney and Bladder trouble and other ailments.

FREE TRIAL
If you want to know more about this water, write for full information. The law of health is simple. It is to eat healthful food, drink healthful water, and get healthful exercise. All this is done in Dynell Water. It is the only water in the world which is so pure and so healthful. It is the only water in the world which is so pure and so healthful. It is the only water in the world which is so pure and so healthful.

MONTREAL FACES ECONOMIC CRISIS IN WHEAT TIE-UP

120 Ships, 1,800 Canadian Sailors Idle.

BY STANLEY JACKSON.
(Chicago Tribune Staff Service.)

MONTREAL, Que., Aug. 20.—The grain blockade at Montreal is raising a rumour here. Newspapers are striving to get at the bottom of the situation with Montreal's grain elevators closed all season. There is little export business, and vessels are tied up unable to unload grain, while other vessels have been idle.

J. H. Pave, president of the Canadian Seamen's association, today summed up the conditions along these lines: "The situation is a little better, but the Canadian seamen are migrating to the United States for jobs, and finally the Canadian wheat pool is to blame for holding up prices."

U. S. Wheat Cheaper.
American wheat, which is selling at 20 cents a bushel below Canadian prices, is now coming over the Canadian border and selling at a profit to Canadian buyers. The Canadian duty on wheat is 15 cents, while the United States duty is 45 cents. That is the latest factor reported as weakening the Canadian market.

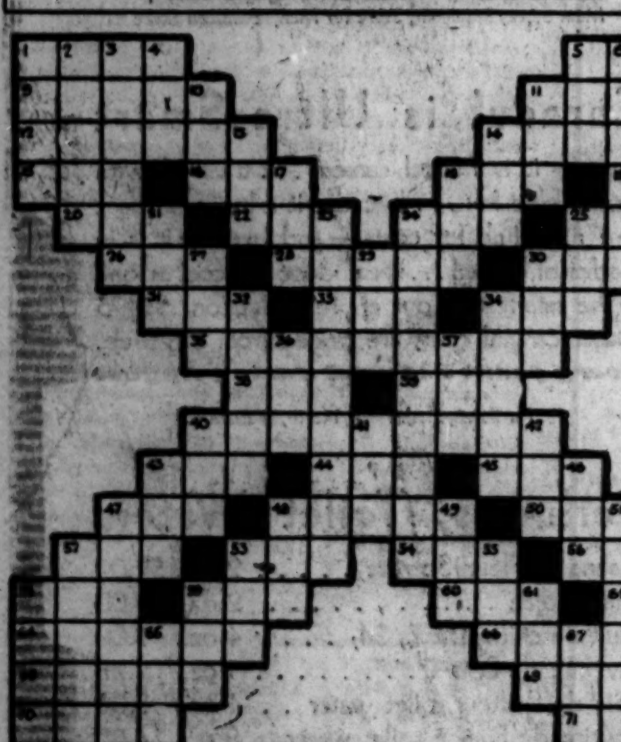

Further in the season Argentine wheat was under selling Canadian wheat, and the dominion was neglected by foreign buyers. Now the big competitor in the United States, wheat is selling at 15 cents a bushel, and it is now filled to capacity, with a number of vessels still waiting to unload.

Challenged to Waterways Debate.
As an outcome of statements made by Dr. Milton Huxley of the Montreal Harbor commission at Chateaufort, Va., regarding the proposed deep waterway from the great lakes to the Atlantic, the doctor has received a challenge to debate from Edward C. Carrington, chairman of the Great Lakes Hudson Waterways association.

The latter challenges Dr. Huxley to debate before any audience in any forum in Montreal the following question: "That, in order to preserve the cordial and friendly relations that have existed for more than 100 years between the dominion of Canada and the United States of America, it is inevitable that Canada should develop and control her own waterways and waterpowers, and that the United States of America should develop and control the waterways and waterpowers within the United States of America, and that any partnership or cooperation between Canada and the United States of America in the premises will inevitably lead to international discord and ill will, and will be contrary to the kindly feeling and friendship that has been obtained between the peoples of these respective countries."

JAMES WIDOW OF BLAIR HAN, Chicago, Ill., was the first to challenge Dr. Huxley. He is a lawyer who has been in the United States for many years. He is a member of the Great Lakes Hudson Waterways association.

ALL RIGHT, YOU KIDS—WHO IS NEXT NOW? PLENTY OF ICE CREAM HERE FOR EVERYBODY.

GEE, I'VE HAD LEVEN COMES ALREADY BUT I BET I COULD EAT A DOZEN MORE.

WHY—I NEVER TUCKED AWAY SO MUCH GRUB IN MY LIFE—IF THERE WASN'T SO MUCH I'D LAY OFF. BUT IT'S A SHAME TO SEE ANY OF THIS STUFF GO TO WASTE.

HMM—YOUNG JOHN BLUNDER SURE ISN'T A BIT LIKE HIS FATHER—'SOUT KIDS' THEY WRECKED THEIR NICE CLOTHES, BUT HE DOESN'T SEEM TO MIND IT A BIT.

AM 'TH' KIDS ARE ALL CRAZY 'BOUT HIM TOO—AN' THERE'S ALWAYS A BUNCH O' DOGS FOLLOWING HIM AROUND—ANY GUY THAT HAS KIDS AN' DOES NUTTY OVER HIM MUST HAVE SOME GOOD IN HIM—EM, SANDY?

K. OF C. ENDOWS SCHOOL TO TRAIN MEXICO PRIESTS

Convention Rejoices at Lateran Pact.

Milwaukee, Wis., Aug. 20.—(AP)—Meeting for the first time since the adjustment of the religious situation in Mexico and the signing of the Lateran pact, the supreme convention of the Knights of Columbus today expressed satisfaction with both settlements.

Supreme Knight Martin H. Carney of Grand Rapids, Mich., touching on the Mexican settlement in his annual message delivered at the opening session of the 47th annual convention, expressed the hope that "with this era of restored peace and good will our brothers in Mexico may again resume their fraternal relations in the council and enjoy the benefits and blessings of their membership with their brothers of other nations of this continent."

To Reestablish Councils.
There were more than fifty subordinate councils of the order in Mexico when the church and government clashed. With the exception of a few, all suspended activities. Now that an agreement has been reached it is expected that the order, through its subordinate councils, will consider ways and means of reestablishing its subordinate councils and resuming its various welfare and educational activities.

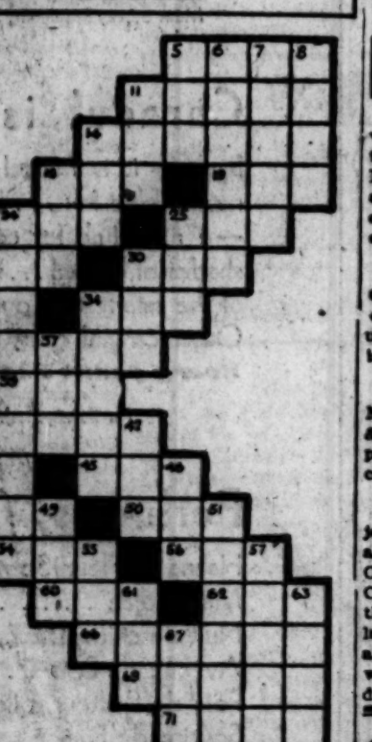

One of the conditions of the agreement, which stipulates that all clergymen practicing their faith in Mexico must be of Mexican birth, has been met by the Knights of Columbus with an endorsement for a seminar to train Mexican Catholics for the priesthood and the board of directors has been studying the agreement with a view to further cooperating in stabilizing religion in Mexico.

Diocese Oath Libel Victory.
Mr. Carney, discussing the libel suits won by the order during the past year for circulation of the "bogus fourth degree" card, gave major credit for the convictions to Supreme Advocate Luke E. Hart, of St. Louis, Mo., who prepared most of the cases for trial, and to Supreme Secretary William J. McGinley of New Haven, who testified in many cases.

This morning delegates and visitors paraded through the downtown district to the Milwaukee auditorium where a pontifical mass was conducted by Bishop Paul Rhode of Green Bay. Immediately following the mass, Governor Walter Kohler, in behalf of the state, welcomed the convention to Wisconsin.

James widow of BLAIR HAN, Chicago, Ill., was the first to challenge Dr. Huxley. He is a lawyer who has been in the United States for many years. He is a member of the Great Lakes Hudson Waterways association.

ARMED FACTIONS MENACE AUSTRIA WITH CIVIL WAR

Socialists and Fascists
Outnumber Army.

BY JAY ALLEN.

VIENNA, Aug. 20.—(P)—The Austrian government with all good faith has again declared its impotence before what amounts to a passive civil war between the Fascist Heimwehr and the Socialist Schutzbund, which emerged from the passive stage on Sunday at St. Lorenzen and St. Marzen.

Chancellor Streussner blames nobody, stating that an investigation is under way, defending the local authorities, who, it seems, did their level best, and completely ignoring the main issue.

Meanwhile the Socialist Schutzbund, who number about 10,000, have about 20,000 rifles, plus 46 machine guns. The Heimwehr is divided into two factions and number about 40,000. They have probably 100,000 arms and a good quota of machine guns.

Tradition of Freedom.

A less violent faction of about 40,000, headed by a country lawyer, Dr. Stedie, has its strength at Tyrol, Burgenland, and Salzburg, and is backed up with the Bavarian extremists like Maj. Papst.

A wider crowd of some hundred thousand, headed by Dr. Pfeiderer, rules at Styria, Carinthia, in Upper and Lower Austria, and dates back to the days of the Carinthian war of liberation with Jugo-Slavia. They have a fine military tradition and a trained general and staff.

The Stedies are working for compromise with the Bavarians. The Pfeiderers and Hungarians control the money.

"What could a little Austrian army of 10,000 men, as limited by the peace of St. Germain, do in face of this?" is the question on the lips of the few Austrians who think about it.

Promise of Aid.

(Chicago Tribune Press Service.)

BERLIN, Aug. 20.—The Reichsbanner, German Republic semi-military organization, has sent two envoys by a special chartered airplane to Vienna to inform the Schutzbund leaders that the German Reichsbanner is prepared, in case civil war breaks out in Austria, to give active help in fighting against the Heimwehr. The envoys were instructed to discuss plans of action with the Austrian Republican leaders.

VIRGINIA DEMOCRATS BAR "SMITH MONEY" IN FALL CAMPAIGN

Richmond, Va., Aug. 20.—(P)—Virginia Democratic headquarters, in a formal statement regarding the state campaign, today declared: "No money has been or will be accepted from or through the national Democratic committee or any of its officers outside of Virginia."

The statement answered a charge made yesterday by Frank Lyon, anti-Smith Democratic chairman, that the same sources that financed Alfred E. Smith's campaign for the presidency would supply money for the Democratic state campaign. It was issued over the signatures of Dr. John Garland Pollard, nominee for governor; James H. Price, nominee for lieutenant governor; John R. Saunders, nominee for attorney general; J. Murray Hooker, state chairman; Mrs. Robert C. Watts, national committeewoman; and Gov. Harry F. Byrd, national committeeman.

ARMY TO PROVIDE JAILS FOR HORDE OF U. S. CONVICTS

Washington, D. C., Aug. 20.—(Special.)—United States military prisons will be used to relieve the congestion in federal penitentiaries until the \$5,350,000 expansion program submitted by Attorney General Mitchell to the budget bureau is carried out. President Hoover announced today.

Accommodations for about 1,600 of the prisoners now herded into the Atlanta, Ga., and Leavenworth, Kas., federal penitentiaries are available in the army's Leavenworth prison, which now houses only 600 prisoners.

The present inmates probably will be transferred to the military prisons at Governor's Island, N. Y., and Alcatraz, Cal., or in the cases where their terms are short sent to army post prisons.

"Subject to our being able to overcome any legal difficulties," declared the President in a formal announcement of the plan, "it is proposed to make the Leavenworth military prison available to the department of justice as a temporary measure pending construction of further accommodations by the department of justice. This will afford relief to about 1,600 prisoners from the general prisons at Leavenworth and Atlanta."

The prison building program of the department of justice contemplates the erection of a \$5,000,000 penitentiary in the northwest, an industrial reformatory to cost \$2,500,000 in a western state, and three federal jails, costing \$250,000 each, at places yet to be selected.

TIN STAR RACKET LAID TO ARCHAIC HORSE THIEF LAW

(Picture on back page.)

The old horse thief law of 1835 has become a citadel for racketeers who pose as law enforcement associations. The law was passed to give quasi-police powers to organizations of farmers in their pursuit of horse thieves. There is no further need for such a statute in Illinois and it should be repealed.

Such are the views of the Employers' Association of Chicago, which announced a campaign last night for the repeal of the obsolete law in order to protect citizens from paying tribute to various "police reserve" and "constable" associations.

Repeal Halted by Veto.

Walter Walker, attorney for the association, pointed out that the last general assembly passed an act, sponsored by Frank A. McCarthy of Elgin, to repeal the horse thief law, but the act was vetoed by Gov. Emmerson because of downstate pressure.

Schemes to mulct motorists and

business men under the cover of the horse thief law have become so numerous that they curtail the legitimate charitable enterprises of the Chicago police department," said Attorney Walker. "Commissioner Russell is supporting the new campaign for the repeal of the law."

"The police racketeer organizations are able to convey the impression to business men that they are legitimate agencies. They give out courtesy cards supposed to confer special highway privileges to the bearers. They issue tin stars and they sell advertising space in publications which are never published."

Gives "Tin Star" List.

"Complaints from business men have been received against the following so-called police organizations: Illinois Motorcycle Police, known as the 'Motorcycle Police,' promoter, He is an ex-motorist man for a taxi company and a former Lincoln park policeman. His assistant is Albert E. Judson, an ex-highway motorcycle policeman."

Illinois Police Reserve. Address 105 S. Dearborn street. Walter P. Stuart, promoter. His chief assistant is James Van Matra, who affixes his signature as 'Lieutenant, retired.' Illinois Justice, Police Magistrate and Constabulary association, Sherman S. Knox is president and Bill Bishop is the secretary.

Sheriffs and Police Officers Association of America. Office at 139 North Clark street. Its board of directors include John P. O'Dowd, sheriff, Manchester, N. H.; Thomas Avey, sheriff, Cedar Rapids, Ia. and A. J. Laven, sheriff, Huron, S. D.

Sherman S. Knox of the constabulary association is the police magistrate at Orland Park. An excerpt from a letter sent by a La Salle street banker to the Employers' association reads:

"Judge Knox said he was on the bench at Orland Park and he said he would be glad to send a representative to see me if I care to make a donation. When a sitting magistrate uses his office to get contributions for implied immunity from prosecution for some uncommitted offense, it is pretty hard to stomach."

RED BANDITS ROB CHINESE OFFICES OF CHICAGO FIRM

Raiders Loot Town; Escape Over Border.

BY JOHN POWELL.
(Chicago Tribune Staff Writer.)
HARBIN, Manchuria, Aug. 20.—The Chinese agent of the International Harvester company in the town of Mieshan, located on the Chinese-Russian border north of Pootung, telegraphed the main office at Harbin today stating that a Russian band of so-called irregulars had invaded the town, and looted the company's office. Later they burned a large vodka distillery, and then escaped in the direction of the border, he said.

It was stated that the raiders wore mixed uniforms, some of which were similar to those of regular soviet troops.

The town of Tungting, also located on the border south of Pootung, was likewise looted by a band of partisans. Chinese authorities have rushed reinforcements to this area.

Soviet Deny Terrorist Blame.
Roy Maxwell Talbot, American commissioner of Chinese customs at the station of Tachien, opposite Blagoveshchensk, reported here today that due to the serious situation created by irregular gangs of forces led by Russians, the Chinese military commander has ordered the withdrawal of all Chinese troops from the town in order to prevent being cut off.

The Soviet government has denied any connection with the series of terrorist activities along the entire Chinese border in the last few days.

The Nanking delegate, Chu Shao-yang, who failed in his attempt to meet the Russian delegate at Manchouli last week, and who has been excluded here since his return, suddenly departed for Mukden yesterday morning.

Gen. Liu Kwang, personal agent of Gen. Chiang Kai-shek, head of the Nationalist government, who has been in the Manchouli district investigating the military situation, has also hurried back to Mukden after inspecting the Dairi Nor coal fields, scene of recent Chinese-Russian clashes.

Many wealthy merchants along the Chinese Eastern railway are departing for Dalen. The paralyzed business here is causing a slump in the unsecured paper currency, with the merchants' practically increasing their prices in order to keep up with the currency drop.

Battle of Propaganda.
TOKIO, Aug. 20.—(AP)—The Russian-Chinese war in Manchuria has settled down to a "battle of propaganda" according to reports received here. Charges and countercharges of invasions and other provocations, today were brought to the official notice of the Japanese government when the Chinese minister, Wang Yung-pao, laid a full account of Russia's alleged aggressions before H. Araki, chief of the Asiatic bureau.

Wang asserted he acted on instructions from the Nationalist government at Nanking. Nanking told him to inform Japan that Russia definitely launched a campaign of border aggression Aug. 16. Nevertheless, China intends to remain in peaceful relations with her northern neighbor, according to the diplomat. Meanwhile Russia cables bring similar charges against the Chinese.

HEATH MAY NOT BE ACCUSED OF DRY AGENT DEATH
Detroit, Mich., Aug. 20.—(AP)—Mrs. Maxine Heath, wife of John M. Heath, Detroit elevator mechanic who is accused in the death of Richard J. Sand-lande, federal prohibition officer, was freed following her arraignment this afternoon before J. Stanley Hurst, United States commissioner. The charge against Mrs. Heath was assault and resistance of a federal officer and use of deadly weapon.

Heath still faces a charge of manslaughter, although United States District Attorney John R. Watkins admitted this afternoon there was not sufficient evidence against Heath at present to convict him of either a murder or manslaughter charge.

Sandlande's body, with his neck broken, was found floating on the Detroit river, several days after he disappeared while guarding Heath's cabin cruiser which he had seized for violation of navigation laws.

Mandel Fashions Follow Fall Forecasts

Accessories to Complete New Brown Ensembles

Real Stone Jewelry

\$7.50

Rings and Earrings Are Brown, to Wear with Fall Ensembles

Daytime jewelry for Fall follows the trend of fashion—in rings and earrings with sterling silver mountings, marcasite, and real stones—carnelian and topaz to wear with browns, chrysoprase to match greens, and lapis, chalcedony and onyx. A few necklaces, too.

Mandel's Jewelry—First Floor—Wabash

Kid Gloves in Brown

\$3.95

All the Light, Dark and In-Between Shades for Fall

Fine French kid, in all the browns to complement brown costumes for Fall. Novelty and slip-on styles, many with contrasting trim at cuffs. All in a special selling at \$3.95 pair.

Mandel's Gloves—First Floor—State

Hose in Fall Browns

\$2.50 pair

New Shades—Ali Babi, Mink Beige, Sable, Suntan, Silene—and Others

Very sheer, all silk ingrain chiffon, with contrasting picot top and trim, reinforced heel, this hose is a quality for which you would ordinarily pay much more than \$2.50. New Fall shades include tones to harmonize with every brown costume—and greys, also smart for Fall.

Mandel's Hosiery—First and Fifth Floors—State

New Brown Handbags

\$7.50

Antelope Suede and Calf or Goat Skins Are Popular Leathers

Choose a bag to match your brown costumes for Fall. It may be a pouch style of antelope suede with top ring for handle... or a smaller suede bag with marcasite lift lock. Calf or goat skins use a variety of grains, and an assortment of clever pockets and compartments... one being a zipper pocket that keeps small possessions from falling out.

Mandel's Handbags—First Floor—State

New Brown Superba Shoes

\$12.50

Suedes, Kids and Calfskins and Some Suede-and-Kid Combinations

All the brown shades for Fall in this group of new Superba shoes. Blucher oxfords, of suede and calf, a pump in the same combination... Regent pumps of suede, kid or calf... and a variety of tie and strap effects and step-ins, in kid, suede or calf, often with a touch of lizard. High, low and medium heels.

Mandel's Shoes—Fifth Floor—State

Lapin Sets New Fashion in Youthful Sports Fur

A Fashion Fur Featured In Mandel's August Sale of Furs

Important because it complements new brown tones... because it's a soft short-clipped "dressmaker" fur... because it brings elegance to the sports model

Lapin sponsors Beige tones in "Beige," Beige-blush, and brown shades

Lapin is jaunty and trim when it is belted with dark leather... and a "dressmaker" fashion when it ties with a belt of the fur and carries a muff to match it.

Mandel's Feature New Models in Lapin from \$195 to \$265 in the August Sale!

In the August Sale a deposit will hold any coat. You may have the purchase posted on Nov. 1st statement, if you have a charge account.

Any of the furs purchased in Mandel's August Sale of Furs will be stored in Mandel's fur vaults until Nov. 1st free of charge.

Good Wor

NEW YORK, Aug. 20.—(AP)—The Yankees won 8-3 over the Red Sox in the first game of a double-header at Yankee Stadium today. The Yankees scored in the first, second, fourth, sixth, seventh, eighth and ninth innings. The Red Sox scored in the third and fifth.

Chicago, Aug. 20.—(AP)—The Cubs won 4-3 over the Pirates in the first game of a double-header at Wrigley Field today. The Cubs scored in the first, second, fourth, sixth, seventh, eighth and ninth innings. The Pirates scored in the third and fifth.

BY EDWARD
Old Red Sox didn't win a game, but they were happy, including the manager, who was in the White Sox pinstriped uniform in gold, a very large ring, many flowers, and knowledge that his team had won high into the third inning. The Yankees won 8-3 over the Red Sox in the first game of a double-header at Yankee Stadium today. The Yankees scored in the first, second, fourth, sixth, seventh, eighth and ninth innings. The Red Sox scored in the third and fifth.

It was not the fact that Hoffman, Sox center fielder, had been hit by a pitch from White Sox pitcher, that made the difference. Hoffman was hit in the head by a pitch from White Sox pitcher, that made the difference. Hoffman was hit in the head by a pitch from White Sox pitcher, that made the difference.

Twenty thousand fans paid homage to Old Tom, who didn't come out of the park much any more, out to give a great happy day. They were sitting game, but doubt many hundreds of other and better days.

Red Gets Back They were thinking who beat the Yankees in the world series of 1918 gave Chicago its baseball championship in baseball. The Yankees won 8-3 over the Red Sox in the first game of a double-header at Yankee Stadium today. The Yankees scored in the first, second, fourth, sixth, seventh, eighth and ninth innings. The Red Sox scored in the third and fifth.

In the Sox second game, Red was getting paid too much, seeing it. So he led off the game, and came in while the Sox were out. He led off the game, and came in while the Sox were out. He led off the game, and came in while the Sox were out.

Hoffman Hits Pair
of Triples.

Good Work, Red!

BY EDWARD BURNS.
Old Red Faber didn't win his game
as Faber day, but everybody went
home happy, including Old Red. As
him to his professional feelings, the
White Sox patriarch toted away \$2,750
in gold, a very large radio, a diamond
ring, many flowers, and the renewed
knowledge that his baseball friends
run high into the thousands.The Yankees won, 5 to 4, the slight
edge reflecting little against the per-
petual talent of the redhead from Cas-
cade, Ia. What proved to be the win-
ning run was the fault of Bud Clancy,
though he received no error for his
lapse. Bud, you know, has the grace-
ful but ineffective habit of winding up
after the fashion of pitchers. While
he was winding up after capturing an
infield tap, the winning run was ac-
complished by Sammy Byrd.Hoffman Hits Pair
of Triples.
It was not the fault of Clarence
Hoffman, Sox center fielder, that his
elder Dutchman didn't enjoy the
fruits of victory. As his part in the
Faberfest Herr Hoffman contributed
two triples. Of the Sox four runs
Dutch scored two and drove in the
other two.Manager Miller Huggins cooperated
in the day of memories by sending
forth another old warhorse and world
series star of a past era—Tom Zach-
ary. This, however, was no conces-
sion on the part of Mr. Huggins, for
Tom, though he retired in the seventh,
was credited with his ninth victory of
the season, as compared with no de-
feats.Twenty thousand fans were on hand
to pay homage to Old Red. Many of
them don't come out to Comiskey
park much any more. But they were
out to give a great right-hander a
happy day. They saw a rather ex-
traordinary game, but doubtless there
were hundreds whose minds dwelt on
other and better days in the Comiskey
dynasty.Red Gets Bad Start.
They were thinking of the Red Top
who beat the Giants three games
in the world series of 1917—pitching that
game Chicago its last world's cham-
pionship in baseball. They were think-
ing of White Sox that stayed White
while others became black in the fall
of 1919. They were thinking about
a loyal baseball employee who always
has given his best despite his 41 years
and the recent and current discourag-
ement of mediocre surroundings.It was Faber day and there was a
heap of sentiment about it. There are
"days" and "days" in baseball, but
most of them are hollow affairs
aimed out to click! clickless turn-
outs. But this one was different.In the initial inning Robertson, who
is much too young to give a whoop
about patriarchy, tripled, and scored
a sacrifice fly off Coffey. In the
second inning Gehrig singled and went
to third on Lazzeri's double. Dickey
was out but Koenig singled, scoring
Lazzeri and Tony. The score was 3 to 0
against Old Red and the game wasn't
much more than started.Zachary Retires in Seventh.
In the Sox second Hoffman decided
he was getting pushed around a bit
and was getting tired. He was Faber
day, so he let off the inning with a triple,
scored while Hunsfield fled to Ruth,
and came in while Koenig was throw-
ing out Kerr. Berg singled, but Faber
threw to Gehrig.The Tanks scored a run in the fifth
and another in the sixth, to make the
score 5 to 1. Then, in the last of the
ninth, Hoffman again did his stuff.
Hoffman walked, then Claxton fled to
Claxton. Claxton was safe on Koenig's
throw, driving in Metzler and
Lazzeri, and scoring himself on Hun-
nfield's single. Kerr was thrown out
on Hunsfield.GOLF—NOW YOU'RE GETTING

CHICAGO HONORS RED FABER

Chicago honored Red Faber, dean of the White Sox pitching staff, yesterday at Comiskey park when the Sox met the New York Yankees. Old Red was presented with a \$2,750 purse of gold, a radio, and flowers, in addition to the appreciation each fan has for the star pitcher. Left to right: Urban Faber, Mrs. Urban Faber, Mrs. N. A. Faber (his mother), and Babe Ruth.

PITTSBURGH GIVES UP.

There still is a mathematical
possibility that the Pirates will
finish ahead of the Cubs in the
National league pennant race, but
Pittsburgh fans are figuring on
Chicago as the site of the opening
game of the world series.A request for five boxes to the
battle between the Cubs and Ath-
letics was received at the Cubs
headquarters last night from a
Pittsburgh newspaper.The Chicago club is not yet pre-
pared to accept ticket orders for
the world series.

DOES HIS STUFF,
PLUS, AND HOW!Des Moines, Ia., Aug. 20.—(AP)—Russ-
ell Haas, Des Moines flying golfer,
did all he agreed to do today—play
five golf courses in as many Iowa
cities—but it was one tough grind.
From just a short time after he left
here at 4:35 a. m. until he returned
at 7:35 p. m., Haas experienced a gen-
eral attack of air sickness in traveling
the 442 miles between towns. It was
the first time he had ever ridden in
an airplane. The "indisposition" so
disturbed him by the time he reached
Waterloo at 10:42 a. m. that he yalped
until noon to tee off with Bob Elder,
pro, professional, although he had
hoped to complete his five town circuit
in time to get in some extra holes on
his return to Des Moines.
Haas played 45 holes of golf, scor-
ing a total of 203 strokes.Rose of Sharon Wins \$10,000
Test Stakes; Karl Eitel Second

BY FRENCH LANE.

Rose of Sharon, her brown coat
sparkling under a bright August sun,
raced her way to the western 3 year
old championship before a crowd of
18,000 at Hawthorne yesterday.
She won the \$10,000 Test stakes by
a length and a half from Aid. John J.
Coughlin's Karl Eitel, with Thistle
Fyrn, the Ohio Derby winner, third.
And there were still more thrills in
store for the fans. In the last race
they saw a one-sided whipping duel
between the two most popular Chicago
jockeys. Just as Paul Neal was boot-
ing Red Leather across the finish line
to win by a head from Mary Dale,
Elmo Shropshire, half a length behind
on House Girl, lost his temper and laid
his whip across Neal's back.Shropshire Set Down.
As a result he will ride no more this
meeting. When he could give no satis-
factory explanation to the stewards, it
was decided to set him down.Not since Blue Larkspur romped to
his triumph in the American Classic
has a 3 year old won as decisively as
did Rose of Sharon. C. McCrossen, her
rider, took the lead as the barrier lifted.
She made the pace all the way. And
she seemed to be laughing at the styl-
ish band of colts as she went gallop-
ing past the line of finish at the end
of the mile and a sixteenth struggle.
Kentucky Oaks, Latonia Oaks, and
Illinois Oaks, Rose of Sharon got her
first opportunity at the males of her
age in the American Classic at Arling-
ton. Over the difficult track she failed
dismally, while Blue Larkspur won.
She was never a contender. The hard
campaign had begun to tell on her.
Trainer Dan Stewart gave her a rest
and brought her back into competition
at Hawthorne about 10 days ago. She
won that race very handsly.She got her next chance at the
Derby winners, Karl Eitel, the Fair-
mount Derby winner, Buddy Bead,
the Latonia Derby victor, Thistle
Fyrn, the Ohio champion, Calif Roper,
the Louisiana Derby winner and Ver-
mado, the New Orleans handicapper
winner, in the Test stakes yesterday.
Made a show of them and ran the
mile and a sixteenth in 1:44.45, there
in a second of the track record. There
was never a time when her right to
make the running was endangered.
McCrossen had her away flying. He
hugged the rail with her at the club
house turn and she jumped into a lead
of a length.

Wins Pulled Up.

From there home it was a cakewalk
though Karl Eitel, Vermado and
Thistle Fyrn were forcing one of the
most severe races of the year in Chi-
cago. But as each of the challengers
moved up, Rose of Sharon moved on
away. At the lower bend her margin
was two lengths with Karl Eitel bang-
ing in hull dog fashion in second

Mike Hall Out

Mike Hall, the Crusader, will
not be among those present when
the Crusader's special is run at
Hawthorne this afternoon. The
\$10,000 race at a mile and an
eighth was arranged as a Chicago
farewell to Mike Hall, which will
invade England this fall to com-
pete in several important cup
races.But the assignments of weights
kept him out of the battle. He
was asked to pack 125 pounds.
Display, his greatest rival of last
year, was let into the contest
with 116 pounds.The field, arranged in the order
of post positions, follows:Horse. Wt. Jockey. Odds.
Kaiser Stables 112 B. Philpot 8-1
Monsieur 110 F. Halbert 10-1
Buddy Bauer 120 J. Smith 15-1
Martinez 110 F. Neal 20-1
Lewy 110 C. McCrossen 3-1
Merrill Fyrn 115 F. Olivetti 6-1
Willie 110 E. Shropshire 100-1
Blackwood 110 C. Meyer 10-1
Display 116 L. Schaefer 3-1
War Eagle 110 N. Huff 20-1place while Thistle Fyrn was running
third.An eighth from home Rose of Sharon
dashed on into a three length's
lead. It killed off those behind
her. They were staggering. McCrossen
was quick to notice the distress of
the trailers. He pulled Rose of Sharon
up and had her head almost in his
lap as she galloped on to victory.

Rich Widow Wins.

She left no doubt about her superi-
ority among western 3 year olds.
Windy City, the American Derby win-
ner, and Clyde Van Dusen, the Ken-
tucky Derby winner, were absent from
the contest. They were great colts
last spring but not able to accept the
issue in the Test stakes. If they
could have been sent to the post, they
probably would have been just as
dixy as all the others which trailed
Rose of Sharon home.The only bad race Rose of Sharon
has run in her career was in the
American Classic. In her brilliant
march through all her stake victories
she has rolled up a total earnings
of \$45,000.Jim Maloney Wins Decision
from Bertazzolo at BostonOAK BROOK FOUR
WINS WAY TO U. S.
POLO SEMI-FINALSOnwentsia Defeated by
Midwicks, 12-5.(Picture on back page.)
Oak Brook-Du Page, Chicago entry,
and the Midwest club of Pasadena,
Cal., yesterday advanced to the semi-
finals of the United States Polo asso-
ciation twelve goal tournament as a
result of victories over Fort Hoyle, Md.,
and Onwentsia, respectively.By unleashing a four goal attack
in the final period, Oak Brook-Du Page
barged 10 to 7 victor over the ar-
tillery outfit from Maryland on Oak
Brook's No. 6 field, while, at Onwentsia,
C. B. Wrightman and Capt. Neil
McCarthy led the 1929 interclub
champions to a decisive 12 to 5 vic-
tory.Victors Meet Friday.
Yesterday's victors will engage in a
semi-final match Friday. On the day
previous Fort Leavenworth, Kan., and
Port Benning, Ga., winners Monday,
met in the first semi-final engage-
ment.For seven periods, Fort Hoyle
riders kept abreast with Oak Brook-
Du Page, chiefly through the indi-
vidual efforts of Lieut. Charles Mc-
Farland, who until that time had
scored four times from the field. In
the eighth period, Oak Brook-Du Page
loosed an attack that was telling in
every respect, even though Lieut. Mc-
Farland altered the monotony by
registering his fifth goal.Corpsmen Score Thrice.
Maxwell Corbett and Kenneth
Fitzpatrick scored three times apiece.
Once in the third period and again in
the final chukker, Corpsmen, because
he rode hard and played for all he
was worth, was charged with six
fouls.The lineup and summaries:

No.

ing a throw. There was a huff while the Cubs discussed the advisability of passing Cohen. McCarthy waggled his head to pitch to him and Andy bounced a dinky roller toward third. McMillan had to make the peg white off balance and it rolled to the stand past Grimm, permitting O'Farrell to follow Ott across the plate.

Lindstrom Geta Berach hit. The use of a pinch hitter in the eighth removed Bush and brought forth Cengro, who lost no time telling the Giant pitcher to get on with it. The second pair of runs in the home half was touched off by the explosive by doubling to center and Leach's bunt shifted him to third. Pulls ran for Roach. Lindstrom scratched a hit to short and went to second on English's bad throw. Fullis scored. Lindstrom went to third on Terry's infield hit and home on Ott's sacrifice fly.

A hit by Hornsby and an error by Terry enabled the Cubs to collect a run in the ninth and dodge the humiliation of a shutout. McCarthy opened with a single to left and took second and third unnoticed after Wilson and Cuyler had popped out. Stebbins homered to Pittsburgh and the throw to first was perfect but Terry let it keep through his hands. Hornsby running home from third. Grimm then grounded to Cohen to end the struggle.

SECOND GAME

Both factions made moves as of intent on scoring in the opening round of the evening engagement. English doubled for the Chicagoans, but received no assistance from Hornsby or Wilson. In the Giant half Roach hit with a single. A fly to right removed Leach. Lindstrom doubled three strikes and Roach was accepted trying to steal second.

The Giants put their offense bid for a run or so in the second inning and were followed again. Terry singled to center and Ott drew free passage. These two things happened before any one was out. Just to prove he was master of the situation Carlson substituted both Jackson and O'Farrell on pops to English and Cohen on a fly to Stephenson.

Up to the fourth, when the Cubs scored their lone run, only one blow had been pitched against Hubbell. Hornsby was this round moving by giving the ball a long ride to the fence in center. He pulled up at third without being pressed for time. The infield drew in the prepared to play at the plate, but Wilson foiled 'em by driving a single through short. Hornsby going home. Hack was forced on Cuyler's tap and Killebrew mopped up in a double play when Stephenson lined into Lindstrom's hands.

A promising opening loomed in front of the Cubs in the sixth. Hubbell handed a pass to McMillan, English endeavored to bunt, but Terry caught it on the fly. Hornsby enlivened things a bit by booming a two bagger into left center. McMillan going to third. There was a noticeable amount of boozing as Wilson waddled up to the plate. And there was more boozing when Hack missed a third strike. Cuyler grounded to Jackson to end the round.

After getting past the second inning Carlson had no serious troubles until Terry tripled with one out in the fourth. The next two fellows followed in the sixth. Roush led off impressively by clipping a single to center. Leach followed a foul that was far grabbed. Lindstrom fanned and Terry fouled to Taylor.

Two of the Giants tuned in with singles in the seventh, but a neat bit of fielding by McMillan snuffed out this threatened uprising. Ott hit and Jackson forced him. O'Farrell sent a pease league into short center. Cohen then grounded to McMillan, who jabbed Jackson in the ribs with the ball and threw to Grimm for a double play. Only one Giant reached base in the two remaining chapters. Ott walked after two were gone in the ninth, but Jackson poked a bouncer at Carlson and the show was over.

The Cubs had a funny time in the ninth. Three of them were struck out by Scott and yet they threatened to score. The first two strikeouts were put on Wilson and Cuyler. Hack's third strike was called and he spoke quite harshly about it to Empire Jorda. Then Stephenson walked and went to third when Grimm doubled down the first base line. Taylor fanned for the third out and the third time during the game.

PHILS, 8; PIRATES, 6

Philadelphia, Pa., Aug. 20.—(AP)—The Phillies made it three in a row by defeating the Pittsburgh Pirates here this afternoon, 8 to 6. Brainerd, who pitched for the first time in the third inning, five of them coming in the third, but Carmen Hill and Jess Petty, who followed him to the mound, kept the Phillies from further scoring. Lou Koupal went brilliantly for the Phillies until the seventh, when he weakened and the Corsairs scored five runs, three of them being driven home by Paul Waner's home run. He was then relieved by Willoughby, who stopped further scoring.

Chuck Klein, the National league's leading slugger, had to quit the lineup in mid-game. He is suffering from a severe cold. Score:

PITTSBURGH	PHILADELPHIA
W. Brainerd	W. Koupal
W. Brainerd	W. Koupal

Open Entries for Elgin to Chicago Bicycle Road Race

The fourth annual Elgin to Chicago bicycle road race is to be held Sept. 29 and is sanctioned last night by the Amateur Bicycle League of America, and immediately steps were taken by the directors to broaden entry blanks. Clubs which expect to enter riders in the race and individuals who intend to try the grueling forty mile ride on their own hook may secure blanks from John Palk, secretary at the club house, 2150 S. Damen avenue.

AMERICAN GIANTS WIN. The Giants won the American League title by defeating the Boston Red Sox in the final game of the series, 4 to 3, in the ninth inning. The Giants' victory was a dramatic one, as they trailed 3-2 in the bottom of the ninth. The winning run was scored by Fred Merkle, who stole second base and scored on a throw from the pitcher.

Crossan's 142 Wins Crystal Lake's Frolic

James C. Crossan was champion of all he could survey at Crystal Lake yesterday when he not only led a field of 300 golfers, but took a lot of the club's annual frolic. Crossan finished with 70-72-142. This was 12 strokes better than C. J. Anderson of Itasca, who finished with second low gross, and was two strokes under par.

Crossan, who is awaiting his reinstatement in amateur ranks, was still hot from his record breaking round at Crystal Lake last week when he came in with a 66 to also seven strokes off par for the No. 1 course. His card today followed:

Par, out 100. 1 COURSE: Crossan, 66; 2nd, 68; 3rd, 66; 4th, 68; 5th, 66; 6th, 68; 7th, 66; 8th, 68; 9th, 66; 10th, 68; 11th, 66; 12th, 68; 13th, 66; 14th, 68; 15th, 66; 16th, 68; 17th, 66; 18th, 68; 19th, 66; SARAH PALFREY SCORES UPSET AT FOREST HILLS

Defeats English Net Star in Three Set Battle.

Forest Hills, N. Y., Aug. 20.—[Special.]—A 16 year old girl, playing in her first national women's grass court singles championship at Forest Hills, walked off with the honors of the second day of competition in the forty-second annual title tournament today at the West Side Tennis club.

A gallery that sat in comparative silence while Miss Helen Wills, the defending champion, was overwhelming Mrs. Charlotte Hower Chapin, 64, with the most withering onslaught she has turned loose since her return from Wimbledon, gave full reign to its enthusiasm as Miss Sarah Palfrey of Boston, gained a magnificent and unexpected victory over Mrs. Dorothy C. Shepherd Barron, the first of the English Wightman cup players to be defeated.

During the opening set, 10-8, the slender, dark haired protégée of Mrs. George W. Wightman came back in the second to win six games in a row as her firing opponent stood powerless before her marvelous line drives and volleys. The girl then fought her way to victory in a stirring final chapter by the narrow margin of 8-10, 6-0, 4.

Recover; Hitt Stable

Y. Aug. 20.—[Special.]—The barrier during the first round of the annual championship was reported to be in good condition and the race was held in a hot sun.

WOMEN'S DOUBLES

Miss L. A. Harper and Edith Cross, San Francisco, defeated Mrs. O. E. Grey and Mrs. J. H. Wightman, Boston, 6-0, 6-0.

Mrs. H. B. Gould, Boston, and Penelope Richmond, Va., defeated Anne and Virginia Williams, Philadelphia, 6-0, 6-0.

Miss Alice and Miss Frances Parsons, New York, defeated Mrs. J. D. Wightman and Mrs. William Endicott, Boston, 6-0, 6-0.

In the WAKE of the NEWS

TURF CHATTER. CHESTNUT colt by Man o' War-Milky Way sold for \$45,000. A chestnut colt by imported Edward Mary Belle sold for \$26,000. Those were top prices at the recent Saratoga sale of yearlings.

Mrs. Zech Is Victorious in 1st Round Play

Old Man Paul continued to laugh at the first round play in the Women's State Public Park championship at Lincoln park yesterday. None of the contestants, "sharks" or beginners, or intermediaries, could come within gunshot of it. The best was done by the defending champion, Mrs. Lillian M. Zech, who went out in 46 on her first journey over the nine hole course. This was six above par.

Edgewood Valley's 628 Wins Boxing Board Team Golf Championship

Edgewood Valley reached the goal of eight years' trying at Knollwood. The team championship of the Chicago District Golf association. For eight years Edgewood Valley's team had fallen short by a margin of a few strokes, but yesterday they defeated Onwentsia, perennial champion, by ten shots.

Boxing Board Stops Fight at White City

BY WALTER ECKERSALL. The ten round bout between Cowboy Dula of Oklahoma and Jack McKenna of Toronto, Can., scheduled for the White City open air arena tonight has been postponed indefinitely. The new boxing commission refused to sanction the bout because Promoter Mike Malloy had not applied for a permit twenty days in advance of the date. Malloy will put on the bout at either the Logan Square open air arena or the Mills Stadium before the close of the outdoor season.

LOT, TILDEN WIN MATCHES IN NEWPORT MEET

Newport, R. I., Aug. 20.—[Special.]—Sixteen players, including most of the favorites, remained in the 15th annual Newport Casino invitation singles tennis tournament today when the field of 92 starters was reduced to the quarter final stage.

What a Day This Must Have Been for Fishermen!

BY BOB BECKER. [Chicago Tribune Press Service.] Butternut Lake, Wis., Aug. 20.—Rain is falling and the southwest wind is fighting through the young Norway and white pine which surround our cabin, but several boatloads of brave fishermen are pushing out into this lovely lake to try for small mouth bass.

It May Interest You to Learn That

NEW YORK, Aug. 20.—[Special.]—Rogers Hornsby has worn out a lot of shoe leather walking to and from the plate since he came into the majors. Not including today's doing with the Giants, the Cubs star has been in 1,942 big league contests and has been at bat 7,291 times. His other lifetime figures include 1,422 runs, 2,632 hits and 265 homers. His batting average for these many years is a modest .361. Al Munroe Elias, the statistician, collected these figures from the archives.

CHAMPION WINS GOLF PRIZE

Kenosha, Wis., Aug. 20.—[Special.]—Jane Cannon, Wisconsin's state women's golf champion, won the low gross prize with a score of 80 for the day.

RUFFING STARS AS BOSTON BEATS DETROIT, 12 TO 8

Pitcher Gets Three Hits and Scores Twice.

Detroit, Mich., Aug. 20.—[Special.]—Three Detroit pitchers were unable to stop the Red Sox today and the Tigers dropped a free hitting contest, 12 to 8. Charlie Ruffing, who managed to outlast Kyle Graham, Johnny Prudhomme, and Emil Yde, was far from airtight, allowing 12 hits, but he aided materially at bat. He collected three hits in four times at bat, including a double, drove in a run, and scored two.

MIDDLE WEST GAINS 16 3/4 PTS. ON MEALON NEWS

General Chicago Stock List Is Irregular.

BY GEORGE HAMMOND.

Middle West Utilities reflected the \$100,000,000 melon cutting of its subsidiary, New York South West Utilities, by selling up 16 3/4 points in yesterday's irregular stock session. The stock closed at 47 1/2 after a turnover of about 1,650 shares.

Central and South West ended off 1 1/2 points to 150 after the news was sent out. National Electric Power "A" another Middle West subsidiary, advanced 1/4 point on sales of about 35,000 shares while the preferred gained four points. The action reflected the moves of the Byllesby investment trust issues, the common selling up 1/4 points on sales of about 35,000 shares while the preferred gained four points. The action reflected the moves of the Byllesby investment trust issues, the common selling up 1/4 points on sales of about 35,000 shares while the preferred gained four points.

Automotive Gains.
Merchants and Manufacturers participating preferred gained 2 1/2 on a turnover of 11,000 shares on reports of pool operations preceding the issuance of a bullish letter on the company's business and increased earnings. Minneapolis Honeywell was up six points on light trading. Iron Fireman advanced a point and U. S. Gypsum went down 1/2.

The automobile division was featured by gains of from one to two points in the Houdaille-Hersey issues, Borg-Warner, and Great Lakes Aircraft. Unit Corporation was up 1/2 and Pines Winterfront eased two points.

Westark Stores gained a minor fraction. Simon Weisner, president, stated that the company's subsidiary, Westark Radio Corporation, sold radio merchandise valued at \$80,000 over the last week and that the company was to make an increase in the warehouse facilities. Steinberg Radio was up a point and Ken-Rad declined 1/2. Grigsby-Grune was active but moved without a fractional change.

Arrangements Distribution.
Q. R. S. DeVry closed unchanged after sales of about 1,000 shares. T. M. Fletcher, president, announced that the company has just completed arrangements with the Western Auto Supply company, operating a chain of 170 stores on the Pacific coast, to handle the DeVry line of movie and still cameras.

Electric Household Utilities was dull. W. N. Hurley Jr., president, announced that the company shipped three times as many of its washing machine and ironer units in July as in the same month last year.

The Storline Furniture company stock was not traded in. The company reported net gains for July of \$184,445 against \$152,525 in July, 1928.

FINANCIAL NOTES

The Great Atlantic and Pacific Tea company will construct a large terminal warehouse for the receiving, storing and shipping of fresh vegetables, fruits and fish at South Boston, Mass., to supply its more than 1,800 stores in New England. Financing for the structure, which will be operated by the Massachusetts Chain Store Terminals, Inc., will be in the form of \$425,000 first mortgage leasehold 6 per cent sinking fund gold bonds.

An extension until Sept. 6 of the date for the deposit of the Seaboard Air Line 1 per cent adjustment gold bonds under the reorganization plan was announced today by the reorganization committee. Although 75 per cent of the total of \$15,000,000 had been tendered up to Aug. 14, the committee regarded it as essential that there should be further substantial deposits if the plan is to be consummated.

Offering is to be made today by a banking syndicate composed of Grace National company, Inc., Brown Brothers & Co., Continental Illinois company, and E. H. Rollins & Sons of a new issue of \$15,000,000 Chicago consolidated municipal loan, priced at \$94 to yield 7.70 per cent. The offering will be dated as of Sept. 1.

The Budd Wheel company has closed a contract with a large midwestern truck company to supply its 1930 requirements on steel disc wheels, according to Edward G. Budd, president. The contract will total about \$250,000.

The Reading company has awarded a contract to the Bethlehem Steel company for construction of 294 70-ton gondola cars.

Hayes Body Corp. Plans Rights for Shareholders
(Chicago Tribune Press Service.)
New York, Aug. 26.—Rights to purchase one share of stock at \$30 for each five shares held will be extended to stockholders of the Hayes Body Corporation under a plan prepared by directors. The proposal will be voted on at a special meeting Sept. 4. On the basis of 14, a recent price for Hayes Body common, the rights are worth about \$2.33 a share.

Bank Stockholders to Vote on Boost in Capital
(Chicago Tribune Press Service.)
New York, Aug. 26.—A meeting of stockholders of the Chase National Bank and Trust company has been called for Aug. 29 to vote on a proposed increase in authorized capital stock from \$13,500,000 to \$15,000,000. Par value will be reduced from \$100 to \$25.

DRY GOODS.
NEW YORK, Aug. 26.—(AP)—Cotton goods were firm. Broad cloth and light suits of coarse goods were made at full value. In the good range \$100 to \$125 per yard. Broader interest in lightweight wools and worsted dress goods was unchanged. Spot raw silk here and in Japan were unchanged. Demand here good despite high prices.

INVESTORS BUY
BILLION A MONTH
OF NEW ISSUESDisplay Confidence
in Prosperity.

BY O. A. MATHER.

The American people are turning the greater part of their savings into the purchase of securities. The people evidently believe in continued and greater prosperity for our industries and higher prices for their securities. This was aptly illustrated in several news items yesterday.

During the last seven months, more than seven billion dollars of new securities have been placed in the market, according to the Commercial and Financial Chronicle, and of this total more than a billion dollars have represented refunding issues. Therefore, investors have devoted nearly a billion dollars a month to the purchase of new securities.

Undoubtedly several additional billions have been devoted to the purchase of securities listed on the stock exchanges, either for investment or speculation, aside from money borrowed on them either from banks or brokers. In fact, the public is willing to put up abnormally large margins in order to follow the stock market and is discouraged neither by high interest rates nor credit restrictions.

Aggregate Values.

The New York stock exchange announced that the aggregate market value of all listed stocks on August 1 was \$84,232,983, compared with \$77,264,128,909 on July 1. This is an increase of \$6,968,854,174. But during the same period, total borrowings of stock exchange members increased only \$402,573,019, bringing the total up to \$7,473,794,294. Therefore, the total brokers' loans represented only 1.1 per cent of the market value of stocks, whereas on July 1 such loans represented 9.15 per cent of market value.

In other words, whatever trading there was in the listed issues at advancing prices entailed a larger proportion of the money of the trader and a smaller proportion of borrowing. Further supporting this conclusion is the fact that bankers and the federal reserve authorities have been able to lay down on the use of credit for speculative purposes.

Another interesting phase of the stock exchange's report is the fact that the average price of listed shares advanced only from \$51.73 on July 1 to \$52.56 on Aug. 1 despite the spectacular performance of a number of issues. So it is evident that the bulk of the list did little.

The weekly statement of the federal reserve board on the condition of reporting member banks also affords evidence that the system is meeting with considerable success in diverting funds from the securities markets into commercial channels. Loans on securities dropped \$143,000,000, or more than twice the amount of decrease in brokers' loans, and the member banks paid off \$44,000,000 of borrowings from the reserve banks, bringing that item \$30,000,000 below a year ago. On the other hand, commercial loans expanded \$41,000,000.

Insult Expansion. The expansion program of the Insull public utility chain was furthered yesterday. The Midland Utilities Investment company, which is controlled jointly by Middle West Utilities, Commonwealth Edison, Peoples Gas and Public Service of Northern Illinois, announced acquisition of the General Utilities company, which supplies four town communities in southern Indiana with either electric or water service. Midland Utilities Investment already controls a number of public utility companies in Indiana.

The Central Vermont Public Service corporation was formed to consolidate several Insull owned power companies in Vermont, including the Vermont Hydro-Electric, Rutland Railway, Light and Power, Middlebury Electric, and Bradford Electric Light companies, and the Public Service corporation of Vermont.

U. S. TREASURY STATEMENT

WASHINGTON, D. C., Aug. 20.—The following is a statement of the United States treasury on Aug. 17:	
Income to date this year.....	\$268,457,730

LIFE INSURANCE NOW
IN FORCE EXCEEDS 100
BILLION DOLLAR MARK

New York, Aug. 20.—The total of legal reserve life insurance in force in American companies passed the \$100,000,000,000 mark for the first time during the latter part of last month, according to a survey completed today by the Association of Life Insurance Presidents.

The total, which was the goal of American insurance companies for many years, was achieved several months sooner than was expected, owing to an unprecedented increase in new life insurance during the first seven months of 1929. The association predicted last December that the \$100,000,000,000 mark would be reached in the fall of this year.

Ordinarily the computations of insurance in force are made by the association only at the end of the year, but owing to interest in the approach to the \$100,000,000,000 mark special reports have been in process of preparation during the last three months. The reports upon which today's estimate is based came from forty-four companies, representing 85 per cent of the legal reserve life insurance business transacted by American companies.

The reports show that on July 31 of this year the total insurance in force for all companies was approximately \$100,122,955,000. The average net addition to insurance in force for each week during July was \$25,269,000. At this daily rate of increase the association estimates that the \$100,000,000,000 mark was passed on July 26.

PREFERRED ISSUE
TO BE OFFERED
BY SOLVAY CORP.

[Chicago Tribune Press Service.] New York, Aug. 20.—With the proceeds of an issue of \$25,000,000 of 5 1/2 per cent cumulative preferred stock the Solvay American Investment corporation is adding to its stock holdings. The acquisitions consist of 100,000 shares of Allied Chemical and Dye corporation common stock, thus bringing its total holdings of that stock up to 466,488 shares, worth, at present quotations, more than \$140,000,000. This preferred stock is being offered today at \$100 a share to yield 5 1/2 per cent by a group headed by Lee, Higginson & Co.

The preferred stock will carry warrants entitling the holder to purchase up to Sept. 1, 1934, Allied Chemical and Dye corporation common stock for \$25 a share at one share for each four shares of this preferred. Allied Chemical and Dye corporation common is quoted on the New York stock exchange at about \$32.5 a share. Solvay was organized in 1927 in Delaware by Solvay & Co. of Belgium. A leader in the chemical industry, it holds the entire common stock of the Delaware company and owns and operates manufacturing plants in Belgium, France, Spain and Italy.

Blue Ridge Corp. Shares at
Premium Over the Counter

[Chicago Tribune Press Service.] New York, Aug. 20.—Shares of the Blue Ridge corporation, offered by Goldman, Sachs & Co. bankers, as a new step in investment trust financing in that the corporation will offer its own shares at a premium of twenty per cent over the price of the common stock of the corporation, sold at a premium in the over the counter market today. The preferred issue, offered at 5 1/2 per cent, was quoted tonight at 53-54. The common shares, offered at 20, closed in the over the counter market at 28 1/4-29 1/4. Trading was active, and the issue was largely over subscribed.

Coty, Inc., Stockholders
Approve Expansion Plan

At a special meeting of stockholders of Coty, Inc., at which approximately 75 per cent of the stockholders were present or represented, the plan for the acquisition of the foreign Coty companies by Coty, Inc., was unanimously approved. It was announced yesterday. Stockholders also approved the recommendation of the directors that additional shares of Coty, Inc., be offered to stockholders of record Aug. 22 on the basis of one share for each thirteen shares held, at the price of \$45.00 per share, such subscription rights to expire Sept. 20, 1929.

Otis Steel's Business Is
Looking Up, Kulas Asserts

New York, Aug. 20.—(AP)—E. J. Kulas, president of the Otis Steel company, stated today that the steel company's business has shown a decided upturn this month, orders for the first seven days of August running 19 per cent higher than for the same period in July. Operations in most departments, he added, are at capacity.

Outlines Aims,
Operations of
U. S. Reserve

BY SCRUTATOR.

Letters are occasionally received from writers who express puzzlement over the operations of the federal reserve system. Even the mechanism is not simple and the aims of the federal reserve board are often misunderstood, or rather not understood, by financiers.

The annual reports of the board, which is a governmental body controlling the twelve federal reserve banks in as many districts, show plainly that the members recognize not only their duty to keep the currency plentiful but also to use their influence "against undue credit expansion in any direction." The last report stated flatly that in the autumn of 1927, in view of a business recession, a policy of easy money was adopted.

Other statements indicate a desire to halt the use of credit for speculation on stock exchanges, a matter which is the subject of acrid criticism by those who do not believe the buying and selling of securities holds any great danger for the public at present.

Owned by Member Banks.

So much for the aims at present. The organization and the methods used are of fully as much interest. The twelve federal reserve banks are owned by the member banks of the system. These member banks include all the national banks and state banks as desired membership. Capital of each reserve bank was subscribed on the basis of 6 per cent of the capital and surplus of each member bank, and 3 per cent was paid in on organization. The remainder is subject to call when it is needed.

Each federal reserve bank has nine directors. Three are bankers, three are business men not connected with banking and three appointees of the federal reserve board. Of the last named trio, one is the federal reserve agent, the representative of the government.

The federal reserve board itself is composed of eight men, two of them the secretary of the treasury and the controller of the currency. The other six are appointees of the President and hold ten year terms. The governor and the vice governor are named by the President from these six.

In effect, the entire system is a banking system conducted by bankers, but under the close control of a governmental body. It is a bank for bankers, where under certain restrictions the latter may borrow money as they need it. Technically the borrowing is known as rediscounting.

Cites Example

A specific example may show how this is accomplished. First assuming that a member bank in an agricultural section finds itself in need of funds to lend to farmers to move crops, it takes a note of some customer, Jones for instance, with a face value of \$10,000, and indorses it over to the federal reserve bank in the district. For the note the local bank, which has guaranteed the worth of the note, receives \$10,000 minus the interest on the time Jones' loan has still to run. The money is sent to the local bank in the form of federal reserve notes.

This was accomplished by turning over the indorsed note to the federal reserve agent, who had the notes ready in a vault. The local bank received nearly \$10,000 more to lend to its customers. When the Jones note becomes due it is sent to the local bank for collection. The bank is required to pay the federal reserve bank just as its customer must pay it. The easiest way is to forward to the larger institution \$10,000 in paper money. Any kind is acceptable, but to lend to farmers to move crops, the notes must be sorted out by the one that made the bank a loan and sent where they belong, under penalty of a 10 per cent tax for lending it in the district that does not own it.

Theory of Operation.

In any event, the money lent to Jones is taken from circulation when the note is paid, and stays in the reserve bank vaults until other acceptable paper is taken in on the same basis. Eligible paper includes that evidencing loans made by member banks for industrial, commercial and agricultural purposes and government.

Earnings of Public
Utilities Set a New
Half Year RecordSILK CO. RESUMES
DIVIDENDS UPON
COMMON STOCK

Directors of the Real Silk Hosiery Mills, Inc., following what was termed the most prosperous twelve months of the concern's history, yesterday restored the common stock to a dividend basis with the declaration of a regular quarterly payment of \$1.25, payable Oct. 1 to stockholders of record Sept. 13.

This action of the directors places the stock on a yearly basis of \$5. Previous to the early part of 1927, when the last dividend was paid on the common stock, the yearly basis was \$4. The regular dividend of \$1.75 on the preferred stock was also declared.

President Porter M. Farrell said that fall business prospects are decidedly encouraging, the company having found it necessary to run the mills on both day and night shifts. He added the company's new plant will start operation around Oct. 1.

Union Pacific Profits
for July Show Increase

[Chicago Tribune Press Service.] New York, Aug. 20.—The Union Pacific railroad last month cleared net operating profits of \$2,054,126 compared with \$2,154,060 in July, 1928.

Gross revenues were \$18,266,833 against \$16,882,876 in July of last year. For the seven months ended July 31, the Union Pacific showed net operating income of \$15,254,922, against \$14,434,299 in the like part of 1928. Gross revenues totaled \$116,733,463 compared with \$110,456,246 in the corresponding period last year.

Daily Average Crude Oil
Output Up 45,550 Barrels

New York, Aug. 20.—(AP)—The daily average gross crude oil production in the United States increased 45,550 barrels for the week ended Aug. 17, totaling 2,941,550 barrels, according to the weekly summary of the American Petroleum Institute. The daily average production east of California was 2,569,750 barrels, an increase of 16,950 barrels, while California production increased 28,600 barrels.

Sears, Roebuck & Co. Plans
Three Stores at Detroit

The opening of three new retail stores in the industrial district of Detroit will mark the next step in the expansion program of Sears, Roebuck & Co., an announcement yesterday stated.

Twelve
Scotchmen hurt

They tell of an accident in which twelve Scotchmen were hurt when their taxicab ran into a tree.

Regardless of stories, we have noticed that many Scotch people are sound, conservative investors. They don't believe in risking their savings in highly speculative securities which are subject to violent price fluctuations. They appreciate the advantages of 6% and safety.

For such investors, regardless of nationality or age, H. O. Stone First Mortgage Bonds are ideal investments. They can now be bought to yield as high as 6 1/4%.

Write for booklet, "What Makes H. O. Stone Bonds Safe" and our latest list of offerings. Ask for list T-821.

Convertible
Bonds Rise to
Higher Peaks

[New York bond list page 24.] [Chicago Tribune Press Service.]

New York, Aug. 20.—Convertible bonds surged forward today in the listed bond market, with the leaders running up to new peaks. The advance brought on some profit taking, which reduced prices generally from the day's tops.

International Telephone convertible 4 1/2 per cent performed in a spectacular manner today in sympathy with the advance in the stock. They established a new peak of 20 1/2 on a rise of more than 16 points. American Telephone convertible 4 1/2 per cent followed within striking distance of their top prices, encountered selling pressure and finished but fractionally to the good.

On an advance of nearly 3 points, Aetna convertible 4 1/2 per cent established a record price of 19 1/2, but later lost half its gain. New Haven convertible 6 1/2 per cent ground before Seaboard convertible 5 per cent. Time for deposit of Seaboard bonds under the reorganization plan has again been extended.

In the industrial group, such issues as Gould Coupler 6 1/2 per cent, Gannett 6 1/2 per cent, Pressed Steel Car 5 1/2 per cent and Commercial Investment Trust 6 1/2 per cent were strong. The last named reached a new top at 107. American I. G. Chemical 5 1/2 per cent sold off 2 points. There was little interest in the United States government and foreign lists with prices fairly steady.

U. S. STEEL CORP.
STOCK ACHIEVES
RECORD CAREER

Values Make Marked
Rise in 25 Years.

[Chicago Tribune Press Service.] New York, Aug. 20.—Twenty-five years ago United States Steel common was one of the least desirable issues on the New York stock exchange, going begging at between \$8 and \$9 a share. The whole common share capital, consisting of 9,933,025 shares, was worth on the market only about \$43,000,000.

Today the stock rose for a time to a new peak of \$25 1/2 a share, giving the \$9,933,025 shares outstanding an aggregate market value of around \$251,821,456. The outstanding common share capital was worth on the market at that figure about \$1,977,000,000 more than it was twenty-five years ago. Wall street veterans could recall few more striking appreciations in open market values.

Organized in 1901. A few hundred of the original shareholders of United States Steel still have the stock they acquired at the organization of the corporation in 1901. In that year it sold as low as \$24 a share and as high as \$55. In 1902 it touched a low of 25 and a high of 45. The 1903 low was 10 and the high 30. In 1904 and 1905, during which no dividends were paid on the common stock, the price ranged between a low of 5 and a high of 24 1/2.

The stock fluctuated irregularly during the next ten years, never getting above 100. In 1915 dividends were suspended again, but resumed in the following year. It was following the resumption of dividends that the stock in 1916 crossed 100 for the first time. Its high in that year was 129 and its low 79 1/2. The stock did not enter the "double century club" until this year.

The dividend payments on Steel common have varied from 1 1/2 per cent in 1908 to 16 per cent in 1917, when the corporation was profiting from the heavy war business.

Capital Readjustments.

The common share capital of Steel has been readjusted only twice. On June 1, 1927, the 5,083,025 shares outstanding were increased by 2,032,210 shares through the payment of 10 per cent stock dividend, that brought the outstanding shares up to 7,115,235.

Early this year the total number of shares outstanding was increased to 8,930,304 by an offering of additional stock on the basis of one new share for every seven owned.

Market statisticians calculated today that an investment of \$1,000 in 100 shares of United States Steel common in 1904 would have increased by this time to more than \$40,000 had the purchaser invested an additional \$2,800 under the corporation's recent stock subscription offer.

SUMMARY OF THE
DAY'S MARKETS

CHICAGO.
STOCKS—Irrregular. Middle West Utilities soars 18 1/2 points.

Union-Commerce Corp.
Acquires Banks in Merger

[Chicago Tribune Press Service.] Detroit, Mich., Aug. 20.—The Union-Commerce corporation today announced that it had merged with Keane, Higbie & Co., local brokers, and that it had acquired the following banks: Union State Bank, Dearborn; Bank of Commerce, Dearborn; Trenton State Bank, Trenton; Jefferson Savings Bank, Groesbeek Point; Stock Land Bank of Detroit. The National Bank of Commerce, part of the Union-Commerce group, acquired the Union Savings Bank of Brightmore at the same time. The authorized capital stock of the Union-Commerce corporation was increased from \$10,000,000 to \$25,000,000, according to Frank W. Blair, president.

General Electric Erratic.

General Electric went sailing up to 4 1/2 in the early afternoon, but it too, was spotted by profit taking and mown down, winding up at 3 1/2, or some 11 points below its high of the day. Allis-Chalmers likewise was 5 points better than its closing figure at one time and fell off for the same reason. Many of the high priced pacemakers of other recent days, in fact, spent the entire day merely backing and filling.

The unusual activity of stocks at some of the high levels reached was taken by many to mean that investment was being made.

50 stocks.....	283.25	282.80	282.36 1/2

BY FRED HARVEY.

New York, Aug. 20.—"Blue chip" stocks held the spotlight on the stock exchange today, with leaders of the group performing in rather sensational fashion on both sides of the market.

The extreme price swings varied from a gain of 35 points in Allis-Chalmers to a dip of 16 1/2 in American Machine Foundry. Auburn Auto, off 11 points; Case Threshing Machine, up 2 1/4; Worthington Pump, down 4; International Telephone, up 10 1/2; General Electric, off 6 1/4; Allied Chemical, up 7 1/4; Stone & Webster, off 4; Columbia Carbon, up 7—thus the battle of the big time players went.

Bulls Carry Day.

Operations for the rise carried the day by a safe margin on the face of the final returns, although minus signs were more numerous and the losses more substantial in the main than they have been on any day since the big break, following announcement of the raise in the federal reserve discount rate. Profit taking went on steadily in different sections of the list and at times was quite heavy.

Some of the recent leaders were particularly hard hit at intervals. Thus United States Steel was bid up to 25 1/2, a new high mark for all time and a good point or more beyond the objective fixed for the stock when the movement got under way several weeks ago, but ran into heavy selling and was forced steadily back until at the end it was down to 24 1/2.

General Electric Erratic.

General Electric went sailing up to 4 1/2 in the early afternoon, but it too, was spotted by profit taking and mown down, winding up at 3 1/2, or some 11 points below its high of the day. Allis-Chalmers likewise was 5 points better than its closing figure at one time and fell off for the same reason. Many of the high priced pacemakers of other recent days, in fact, spent the entire day merely backing and filling.

The unusual activity of stocks at some of the high levels reached was taken by many to mean that investment was being made.

Research Department Service

INSTITUTIONS AND TRUSTEES

DURING recent months the Research Department of Lawrence Stern and Company has had the privilege of serving many investing institutions, as well as individuals who are placing trusted or estate funds.

The investment of such funds involves many problems, in the solution of which a thorough statistical, analytical and research service is a necessity.

The Research Department of Lawrence Stern and Company has made helpful studies of these problems in connection with the investment lists of numerous institutional clients. We therefore suggest to those responsible for the investment of estate funds—to fraternal and benevolent associations—to religious orders—to colleges and universities, and to other such investors—that this department is in a position to be of real benefit.

Our Research Department will be glad to make a study of the investment position of any such investor, and to submit our recommendations.

This is one of a series of advertisements describing in detail the functions of the Research Department of Lawrence Stern and Company.

The services of this department are offered to any investor without obligation, but with the frank expectation that, if we are successful in serving the investor well, we will receive consideration when he purchases securities.

EMPLOYMENT IN JULY 6.5% ABOVE LAST YEAR'S MARK

Washington, D. C., Aug. 26.—(AP)—Employment in manufacturing industries of the United States decreased six-tenths of one per cent in July, compared with June, but was 6.5 per cent higher than in July, 1932.

This was announced today by the department of labor, which said the manufacturing industry's decline from June was the smallest for any July

since the monthly employment report was begun in 1922. A general decline of two-tenths of one per cent was reported.

Pay roll totals for manufacturing industries dropped 4.5 per cent from the June figure but were 7.7 per cent greater than in July, 1928.

Will Defend
Against R

(Pictures on back)
Washington, D. C., Aug. 20.—Charges of the government involving Russian activities are made in a communication of the Chinese government to the United States, made public today. The Chinese government, in its communication, accuses the Soviet government of using the funds of the Russian revolution to finance its activities in China. It also accuses the Soviet government of using the funds of the Russian revolution to finance its activities in China. The Chinese government, in its communication, accuses the Soviet government of using the funds of the Russian revolution to finance its activities in China. It also accuses the Soviet government of using the funds of the Russian revolution to finance its activities in China.

Russia Plots World
These activities, it is charged, are progressing to a point where China is endangered. The Chinese government, in its communication, accuses the Soviet government of using the funds of the Russian revolution to finance its activities in China. It also accuses the Soviet government of using the funds of the Russian revolution to finance its activities in China. The Chinese government, in its communication, accuses the Soviet government of using the funds of the Russian revolution to finance its activities in China. It also accuses the Soviet government of using the funds of the Russian revolution to finance its activities in China.

China to Defend
In a manifesto issued on the 19th of July, the Chinese government declared that it would employ all its strength within the limits of its resources to defend itself against any aggression. The Chinese government, in its communication, accuses the Soviet government of using the funds of the Russian revolution to finance its activities in China. It also accuses the Soviet government of using the funds of the Russian revolution to finance its activities in China.

Refer to Old Hague
Officials of the Chinese government said today that in reply to the Chinese government's communication to the United States, the State department officials declined to interpret the communication. The Chinese government, in its communication, accuses the Soviet government of using the funds of the Russian revolution to finance its activities in China. It also accuses the Soviet government of using the funds of the Russian revolution to finance its activities in China.
